SUBJECT INDEX FOR VOLUME 72 (JANUARY THROUGH DECEMBER 1994)

A

α-2-Adrenoceptors
143A
α-*dicabonyl*
39A
α-Lactalbumin
248A, 38B
Rapid communication: A bovine α-*lactalbumin* gene *Mnl*I restriction fragment length polymorphism, 529
α-Tocopherol
217A
ADF
114A, 169A
ADG
257A, 337A, 381A, 13B
AP-1
228A
Abomasum
351A, 106B
Abortion
103A
Pine needle abortion in cattle: Effects of diet variables on consumption of pine needles and parturition response, 805
Absorbable Protein
386A
Absorption
70A, 74A, 242A, 7B
Effect of intraruminal propionic acid infusion on metabolism of mesenteric- and portal-drained viscera in growing steers fed a forage diet: I. Volatile fatty acids, glucose, and lactate, 1325
Growth characteristics of rats receiving ractopamine hydrochloride and the metabolic disposition of ractopamine hydrochloride after oral or intraperitoneal administration, 404
Site of mineral absorption in lactating cows fed high-fat diets, 229
Acacia
19B
Academic Achievement
20B
Accessory Sperm
171A, 172A
Accuracy
318A
Effects of data structure on variance of prediction error and accuracy of genetic evaluation, 2568
Evaluation of machine, technician, and interpreter effects on ultrasonic measures of backfat and longissimus muscle area in beef cattle, 2216
Optimal contemporary group structure to maximize genetic progress through genetic evaluation of swine, 2254
Prediction error variances for interbreed genetic evaluations, 1971
Technical note: Detection of bias in genetic predictions, 34
Acetanilide Metabolism
145A
Acetic Acid
Digestibility, nitrogen utilization, and voluntary intake of ensiled crab waste-wheat straw mixtures fed to sheep, 565
Acetyl-CoA Carboxylase
209A
Limitations of ractopamine to affect adipose tissue metabolism in swine, 62
Acid Degree Value
21A, 22A
Acid Detergent Insoluble Nitrogen
Evaluation of acid detergent insoluble nitrogen as an indicator of protein quality in nonforage proteins, 1043
Acid-Base Equilibrium
68A, 97A, 133A
Dietary electrolyte balance effects on performance and metabolic characteristics in growing steers, 1842
Acidic Fibroblast Growth Factor
118A
Acidified Milk
37A
Acidosis
352A, 80B, 91B
Aconitase
Rapid communication: A *Pst*I restriction fragment length polymorphism in the ovine *Aconitase 2* gene, 1076
Acremonium coenophialum
116A, 223A, 337A, 19B, 76B, 83B, 84B
Actificial Rumen
187A
Actin Attachment Sites
51B
Activation
74B
Activity Monitors
379A, 393A
Acyl-CoA Desaturase
Stearoyl coenzyme A desaturase enzyme activity and mRNA levels are not different in subcutaneous adipose tissue from Angus and American Wagyu steers, 2624
Adaptation
154A, 101B
Herbage allowance × yearling heifer phenotype interactions for preweaning calf growth on humid pasture and semiarid rangeland, 1417
Added Fat
234A
Additives
276A, 299A, 300A, 301A
Adenosin
161A
Adenosine
209A, 211A
Adherence
19A, 311A
Adipocytes
71A, 73A, 363A
Effect of age on the differentiation of porcine adipose stromal-vascular cells in culture, 2828
Evidence for preadipocyte proliferation during culture of subcutaneous and intramuscular adipose tissues from Angus and Wagyu crossbred steers, 3110
Flow cytometric analysis of porcine preadipocyte replication, 1712
In situ binding and immunocytochemistry of insulin-like growth factor I receptors in primary cultures of porcine adipose tissue stromal vascular cells treated with indomethacin, 969
Adipose
210A, 226A, 349A
Adipose Tissue
74A, 162A, 209A, 211A, 364A, 119B
Cloning of a pig Glucose Transporter 4 cDNA fragment: Use in developing a sensitive ribonuclease protection assay for quantifying low-abundance Glucose Transporter 4 mRNA in porcine adipose tissue, 1196
Effect of dietary canola on fatty acid composition of bovine adipose tissue, muscle, kidney, and liver, 2735

[1]Page numbers followed by A refer to the 1994 Abstracts issue, J. Anim. Sci. 72(Suppl. 1).

[2]Page numbers followed by B refer to the 1994 Sectional Abstracts issue, J. Anim. Sci. 72(Suppl. 2).

[3]Page numbers followed by C refer to the XXI Biennial Symposium on Animal Reproduction, J. Anim. Sci. 72(Suppl. 3).

Effect of porcine somatotropin (pST) treatment and withdrawal on performance and adipose tissue cellularity in finishing swine, 1702
Lipoprotein lipase and metabolic activities in incubated bovine adipose tissue explants: Effects of insulin, dexamethasone, and fetal bovine serum, 184
Palmitate esterification and glycerophosphate acyltransferase activity in adipose tissue of growing lambs, 81
Adipsin
74A
Adjustment
205A, 265A, 37B
Comparison of litter adjustment factors in Yorkshire and Landrace data, 2538
Preweaning growth of Yorkshire, Hampshire, and Landrace pigs, 56

Aluminosilicate
Dietary hydrated sodium calcium aluminosilicate reduction of aflatoxin M1 residue in dairy goat milk and effects on milk production and components, 677
Alveolar Area
120A
Amaferm
383A
Amines
Effects of phenolic monoamines on release of luteinizing hormone stimulated by gonadotropin-releasing hormone and on plasma adrenocorticotropic hormone, norepinephrine, and cortisol concentrations in wethers, 464
Follicular dynamics, embryo production, and hormonal responses in Brahman heifers following sympathetic stimulation, 2948
Amino Acids
74A, 77A, 94A, 98A, 99A, 103A, 241A, 242A, 245A, 246A, 258A, 304A, 342A, 388A, 5B, 87B, 91B, 92B, 93B
Changes in concentrations of hormones, metabolites, and amino acids in plasma of adult horses relative to overnight feed deprivation followed by a pellet-hay meal fed at noon, 1530
Determination of apparent ileal amino acid digestibility in pigs: Effect of dietary amino acid level, 2851
Digestible threonine requirements of starter and finisher pigs, 144
Effect of free amino acids and vitamins on cleavage and developmental rate of bovine zygotes in vitro, 434
Effects of a supply of raw or extruded white lupin seeds on protein digestion and amino acid absorption in dairy cows, 492
Effects of mesenteric vein L-alanine infusion on liver metabolism of organic acids by beef heifers fed diets differing in forage: concentrate ratio, 3196
Energy and protein metabolism of the Chinese pig, 2068
Improved soybean protein sources for early-weaned pigs: I. Effects on performance and total tract amino acid digestibility, 622
Improved soybean protein sources for early-weaned pigs: II. Effects on ileal amino acid digestibility, 631
Interactive effects among porcine somatotropin, the beta-adrenergic agonist salbutamol, and dietary lysine on growth performance and nitrogen balance of finishing swine, 1540
Low-protein, crystalline amino acid-supplemented, sorghum-soybean meal diets for the 10- to 20-kilogram pig, 638
Plasma concentrations of prolactin, glucose, insulin, urea nitro-

gen, and total amino acids in stallions after ingestion of feed or gastric administration of feed components, 2345
The effect of dietary fat content on amino acid digestibility in young pigs, 1737
Aminopeptidase
38A
Ammonia
67A, 78A, 152A, 153A, 193A, 243A, 277A, 112B
Influence of *Yucca* extract on ruminal metabolism in cows, 1038
Anabolics
300A, 44B, 110B
Effect of implant sequence and dose on feedlot cattle performance, 277
Effect of sequential implanting with Synovex on steer and heifer performance, 1095
Effects of anabolic steroids on nitrogen metabolism and growth of steers fed corn silage and corn-based diets supplemented with urea or combinations of soybean meal and feathermeal, 515
Anaerobic Fermentation

A bioeconomic model for comparing beef cattle genotypes at their optimal economic slaughter end point, 38
Additive genetic groups for animals evaluated in more than one breed association national cattle evaluation, 2559
Comparison of live animal and carcass equations predicting percentage of cutability, retail product weight, and trimmable fat in beef cattle, 1107
Cumulative selection and genetic change for weaning or yearling weight or for yearling weight plus muscle score in Hereford cattle, 864
Effect of frequency of supplementation and protein concentration in supplements on performance and digestion characteristics of beef cattle consuming low-quality forages, 2475
Effects of lasalocid and monensin plus tylosin on serum metabolic hormones and clinical chemistry profiles of beef steers fed a 90% concentrate diet, 1049
Estimating marbling score in live cattle from ultrasound images using pattern recognition and neural network procedures, 1425
Evaluation of cytoplasmic genetic effects in Miles City Line 1 Hereford cattle, 851
Evaluation of line and breed of cytoplasm effects on performance of purebred Brangus cattle, 2798
Evaluation of machine, technician, and interpreter effects on ultrasonic measures of backfat and longissimus muscle area in beef cattle, 2216
Exercise and induced-parturition effects on dystocia and rebreeding in beef cattle, 1667
Genetic analysis of calving date in Miles City line 1 Hereford cattle, 3073
Genetic parameters for milk production of Australian beef cows and weaning weight of their calves, 1155
Gonadotropin-releasing hormone-induced secretion of luteinizing hormone in postpartum beef heifers maintained on two planes of nutrition before and after breeding, 998
Implications of genetic changes in body composition on beef production systems, 2756
Influence of alkaloid concentration of tall fescue straw on the nutrition, physiology, and subsequent performance of beef steers, 1068
Influence of production and postmortem technologies on composition and palatability of USDA select grade beef, 1224
Life cycle evaluation of five biological types of beef cattle in a cow-calf range production system: I. Model development, 2585
Life cycle evaluation of five biological types of beef cattle in a cow-calf range production system: II. Biological and economic performance, 2591
Performance and forage utilization by beef cattle receiving increasing amounts of alfalfa hay as a supplement to low-quality, tallgrass-prairie forage, 1059
Plasma characteristics of beef cattle classified as resistant or susceptible to horn flies, 886
Prediction error variances for interbreed genetic evaluations, 1971
Prepartum body condition and weight influences on reproductive performance of first-calf beef cows, 1119
Relationship of horn fly to face fly infestation in beef cattle, 2264
Responses of bovine lymphocytes to heat shock as modified by breed and antioxidant status, 438
Beef Cows
76A, 81A, 85A, 173A, 182A, 183A, 192A, 277A, 285A, 290A, 353A, 365A, 387A, 12B, 16B, 27B, 83B, 84B, 86B
Body energy reserves influence the onset of luteal activity after early weaning of beef cows, 2703
Effect of positive genetic trend for mature size on age-of-dam adjustment factors for weaning weight in Angus field records, 828
Estrus, ovulation, luteinizing hormone, and suckling-induced hormones in mastectomized cows with and without unrestricted presence of the calf, 690

118A
Bloat
291A, 383A
Blood Composition
251A, 289A. 19B
Effects of graded levels of bentonite on serum clinical profiles, metabolic hormones, and serum swainsonine concentrations in lambs fed locoweed (*Oxytropis sericea*), 1561
Effects of lasalocid and monensin plus tylosin on serum metabolic hormones and clinical chemistry profiles of beef steers fed a 90% concentrate diet, 1049
Evaluation of Brassicas in grazing systems for sheep: II. Blood composition and nutrient status, 1832
Performance, clinical chemistry, and carcass responses of finishing lambs to formulated sometribove (methionyl bovine somatotropin), 2544
The effects of high-forage diets with added palm oil on performance, plasma lipids, and carcass characteristics of ram lambs with initially high or low plasma cholesterol, 330
Blood Flow
31B
Cell types and hormonal mechanisms associated with mid-cycle corpus luteum function, 1873
Blood Groups
249A
Blood Lipids
12A
Blood Meal
65A, 238A, 245A, 304A, 70B
The effects of spray-dried blood meal on growth performance of the early-weaned pig, 2860
Blood Protein
Effect of spray-dried porcine plasma protein on feed intake, growth rate, and efficiency of gain in mice, 2690
Blood Urea Nitrogen
218A, 354A, 61B
Boar
280A, 73B, 77B
Boar Exposure
75B
Boar Semen
280A
Boar Taint
253A, 270A
Influence of a gonadotropin-releasing hormone agonist on circulating concentrations of luteinizing hormone and testoster-

one and tissue concentrations of compounds associated with boar taint, 1290
The effects of immunization against luteinizing hormone-releasing hormone on performance, sexual development, and levels of boar taint-related compounds in intact male pigs, 14
Boars
362A, 132B
Influence of penning type and feeding level on sexual behavior and feet and leg soundness in boars, 2531
The effect of energy and protein intakes on boar libido, semen characteristics, and plasma hormone concentrations, 2051
The effect of protein intake on boar libido, semen characteristics, and plasma hormone concentrations, 2038
Body
26A
Body Composition
131A, 165A, 259A, 263A, 295A, 325A, 334A, 347A, 15B, 81B
Bioelectrical impedance analysis for the prediction of fat-free mass in lambs and lamb carcasses, 322
Electromagnetic scanning of pork carcasses in an on-line industrial configuration, 2642
Endocrine responses and body composition changes during feed restriction and realimentation in young bulls, 2289
Growth patterns and body composition of transgenic mice expressing mutated bovine somatotropin genes, 2812
Implications of genetic changes in body composition on beef production systems, 2756
In vivo estimation of body composition of mature gilts using live weight, backfat thickness, and deuterium oxide, 355
The effect of live weight gain and live weight loss on body composition of Merino wethers: Chemical composition of the noncarcass organs and the empty body, 3098
Body Condition
79A, 87A, 88A, 192A, 309A, 312A
Body energy reserves influence the onset of luteal activity after early weaning of beef cows, 2703
Herbage allowance × yearling heifer phenotype interactions for preweaning calf growth on humid pasture and semiarid rangeland, 1417
Prepartum body condition and weight influences on reproductive performance of first-calf beef cows, 1119
Body Fat
389A
Body Lean Mass
A genetic study of estrous symptoms at puberty and their relationship to growth and leanness in gilts, 1964
Body Mass
Serum cholesterol concentration of mice selected for litter size and its relationship to litter size and testis mass, 2943
Body Measurements
126B
Body Size
163A
Body Temperature
288A
Transport of pigs different with respect to the Halothane gene: Stress assessment, 2552
Body Weight
88A, 126B
Cumulative selection and genetic change for weaning or yearling weight or for yearling weight plus muscle score in Hereford cattle, 864
Effect of body weight on net energy value of feeds for growing pigs, 648
Genetic correlations in the feed conversion complex of primiparous cows at a recommended and a reduced plane of nutrition, 1441
Palmitate esterification and glycerophosphate acyltransferase activity in adipose tissue of growing lambs, 81
Prepartum body condition and weight influences on reproductive performance of first-calf beef cows, 1119
Selection for litter size, body weight, and pelt quality in mink (*Mustela vison*): Correlated responses, 1126
Boluses
Evaluation of the captec controlled-release chromic oxide capsule for fecal output determination in sheep, 1375
Bone
259A, 8B
Bone Formation
Effects of testosterone on skeletal growth in lambs as assessed by labeling index of chondrocytes in the metacarpal bone growth plate, 2629
Bone Strength
The mechanical properties of equine third metacarpals as affected by age, 2617
Boran
368A
Bovidae
2A, 70A, 71A, 83A, 85A, 101A, 106A, 178A, 196A, 230A, 231A, 241A, 279A, 282A, 283A, 289A, 315A, 379A, 17B, 75B, 77B, 95B, 96B, 107B
Effect of free amino acids and vitamins on cleavage and developmental rate of bovine zygotes in vitro, 434
Effects of mesenteric vein L-alanine infusion on liver metabolism of organic acids by beef heifers fed diets differing in forage: concentrate ratio, 3196
Expression pattern and partial sequence analysis of a fetal bovine myosin heavy-chain gene, 903
Interactions between large and small bovine luteal cells in a sequential perifusion co-culture system, 963
Rapid communication: A bovine α-*lactalbumin* gene *Mnl*I restriction fragment length polymorphism, 529
Rapid communication: Bovine dinucleotide repeat polymorphism RM095, 254
Rapid communication: Bovine dinucleotide repeat polymorphism RM209, 528
Rapid communication: Diallelic single-stranded conformational polymorphism detected in the bovine *prolactin* gene, 256
Rapid communication: PCR-based *Sau96*I polymorphism in the bovine *lipoprotein lipase* gene, 3032
Bovine Embryo
373A
Bovine Lymphocyte Antigen Complex
254A
Bovine Mammary Cells
120A
Bovine Mastitis
68A, 310A
Bovine Respiratory Disease
105A
Bovine Semen
374A
Bovine Somatotropin
118A, 127A, 138A, 177A, 183A, 221A, 232A, 326A, 346A, 53B
Growth patterns and body composition of transgenic mice expressing mutated bovine somatotropin genes, 2812
Brahman
328A, 30B
Effects of postpartum nutrition and once-daily suckling on reproductive efficiency and preweaning calf performance in fall-calving Brahman (*Bos indicus*) cows, 984
Branding
Screening of depigmenting compounds for the development of an alternate method of branding beef cattle, 1393
Brassica
Evaluation of Brassicas in grazing systems for sheep: I. Quality of forage and animal performance, 1823
Evaluation of Brassicas in grazing systems for sheep: II. Blood composition and nutrient status, 1832
Feed intake and apparent digestibility of hay-supplemented brassica diets for lambs, 1623
Breakeven
276A
Breed
Effect of marbling degree on beef palatability in *Bos taurus* and *Bos indicus* cattle, 3145
Breed Differences
Breed differences and genetic parameters for body composition traits in beef cattle, 2745
Breed effects and retained heterosis for growth, carcass, and meat traits in advanced generations of composite populations of beef cattle, 833
Breed effects, dietary energy density effects, and retained heterosis on different measures of gain efficiency in beef cattle, 1138
Prediction error variances for interbreed genetic evaluations, 1971

Breeding Life
202A
Breeding Programs
86A
Breeding for profit: Synergism between genetic improvement and livestock production (A review), 2178
Breeding Season
128B
Breeding Soundness Exam
84A
Breeding Value
111A, 265A, 39B
Additive genetic groups for animals evaluated in more than one breed association national cattle evaluation, 2559
Technical note: Detection of bias in genetic predictions, 34
Breeds
179A, 180A, 328A, 366A, 370A, 25B, 27B, 34B, 39B, 119B
Breed effects, retained heterosis, and estimates of genetic and phenotypic parameters for carcass and meat traits of beef cattle, 1174
Evidence for preadipocyte proliferation during culture of subcutaneous and intramuscular adipose tissues from Angus and Wagyu crossbred steers, 3110
Responses of bovine lymphocytes to heat shock as modified by breed and antioxidant status, 438
Technical note: Chemical composition of Angus and Holstein carcasses predicted from rib section composition, 1239
Brewers Grains
Co-product fiber digestibility: Kinetic and in vivo assessment, 790
Brine
41A
Broiler Litter
136A, 182A, 193A, 194A, 381A, 8B, 21B, 30B
Broilers
8B, 128B
Brome
85B
Bromegrass
Influence of feeding *Aspergillus oryzae* fermentation extract (Amaferm) on in situ fiber degradation, ruminal fermentation, and microbial protein synthesis in nonlactating cows fed alfalfa or bromegrass hay, 1814
Bromo-Deoxyuridine
225A
Bromocriptine
Effects of bromocriptine treatment on the expression of sexual behavior in male sheep (*Ovis aries*), 591
Effects of photoperiod and slow-release preparations of bromocryptine and melatonin on reproductive activity and prolactin secretion in female goats, 955
Brown Adipose Tissue
289A
Brown Midrib Sorghum
88B
Buck Proofs
179A
Budget
64A
Buffalo Milk
9A, 11A
Buffer pH
170A
Buffering Capacity
138A
Buffers
96A, 97A, 164A, 121B
Bulk Density
236A, 58B
Bulk Tank Shipments
157A
Bulky Diets
Effect of bulky diets based on wheat bran or oat hulls on reproductive performance of sows during their first two parities, 1754
Bulls
84A, 294A, 325A, 11B, 12B, 97B, 98B
Fertility of range beef bulls grouped according to presence or absence of heparin-binding proteins in sperm membranes and seminal fluid, 2441
Growth and reproductive development in Brahman bulls fed diets containing gossypol, 445
Bunker Silos
112A
Butter
23A, 32A
Butter Fat
52A
Buttermilk
5A
Bypass Amino Acids
388A
Bypass Protein
9B, 16B, 85B, 110B
Byproduct Feeds
66A, 115A
Byproducts
308A, 337A, 382A, 81B
Composition, preservation, and use of sea clam viscera as a protein supplement for growing pigs, 546

C

CD14
255A
CHAPS
62A, 47B
Cadmium
262A
Caffeine
150A, 280A, 376A
Calcium
46A, 49A, 97A, 133A, 133A, 134A, 178A, 331A, 344A, 68B, 132B
Calcium level affects the efficacy of supplemental microbial phytase in corn-soybean meal diets of weanling pigs, 139
Effect of dietary calcium concentrations during gestation and lactation in the sow on milk composition and litter growth, 1315
Effects of diet acidity and protein level or source of calcium on the performance, gastrointestinal content measurements, bone measurements, and carcass composition of gilt and barrow weanling pigs, 2670
Site of mineral absorption in lactating cows fed high-fat diets, 229
Calcium Chloride
272A
Calcium chloride concentration, injection time and aging period effects on tenderness, sensory, and retail color attributes of loin steaks from mature cows, 2017
Calcium Soaps
65A, 304A, 351A
Calf Diarrhea
99B
Calf Diseases
378A
Calf Starters
356A
Calibration Standards
254A
Calliandra
338A
Callipyge
59A, 60A, 61A, 96B
Calorimetry
287A
Calpains
325A
Temporal response of rabbits to β-adrenergic agonist feeding: Tissue weight, calpains and calpastatin activities, and nucleic acid and protein concentrations, 68
Calpastatin
328A, 329A, 95B, 96B
Bovine skeletal muscle calpastatin: Cloning, sequence analysis, and steady-state mRNA expression, 606
Heritabilities and phenotypic and genetic correlations for bovine postrigor calpastatin activity, intramuscular fat content, Warner-Bratzler shear force, retail product yield, and growth rate, 857

Calves
78A, 85A, 89A, 95A, 104A, 131A, 132A, 170A, 181A, 182A, 204A, 295A, 296A, 297A, 298A, 303A, 324A, 356A, 359A, 360A, 41B, 52B, 87B, 126B
Bioavailability of feed-grade copper sources (oxide, sulfate, or lysine) in growing cattle, 2728
Changes of nitrogen balance with age in calves weaned at 5 or 6 weeks of age, 732
Circadian fluctuation in heat production of young calves at different ambient temperatures in relation to posture, 598
Diet effects and ontogeny of alterations of circulating insulin-like growth factor binding proteins in newborn dairy calves, 421
Effects of dietary insulin-like growth factor I on growth and insulin-like growth factor receptors in neonatal calf intestine, 428
Effects of energy density and protein source on diet digestibility and performance of calves after arrival at the feedlot, 1616
Energy cost of standing and circadian changes in energy expenditure in the preruminant calf, 2131
Influence of chromium picolinate on glucose usage and metabolic criteria in growing Holstein calves, 1591
Neomycin metabolism in calves, 683
Productivity through weaning of nine breeds of cattle under varying feed availabilities: I. Initial evaluation, 2787
Ruminal characteristics, microbial populations and digestive capabilities of newly weaned, stressed calves, 2969
Wisconsin's "stale calf" issue and a study designed to resolve some of the animal welfare concerns, 2260
Calving
86A, 87A, 197A, 205A, 267A
Effects of Synovex C® implants on growth rate, pelvic area, reproduction, and calving performance of replacement heifers, 292
Estimates of genetic parameters for males and females 320-day pelvic measurements of calving ease of 2-year-old females, 1954
Calving Date
27B
Genetic analysis of calving date in Miles City line 1 Hereford cattle, 3073
Calving Heifer System
84B
Camel
213A
Camel Manure
201A
Canavanine
145A
Cannulation
213A, 332A
Apparent digestibility and retention of nutrients bound to phytate complexes as influenced by microbial phytase and feeding regimen in pigs, 126
Effect of lecithin on the apparent ileal and overall digestibility of crude fat and fatty acids in pigs, 2022
Improved soybean protein sources for early-weaned pigs: II. Effects on ileal amino acid digestibility, 631
Canola
66A, 192A, 237A, 350A, 350A
Digestion characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3213
Growth and carcass characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3221
The effect of dietary fat content on amino acid digestibility in young pigs, 1737
Capillary Capacity
The effect of cimaterol on muscle fiber characteristics, capillary supply, and metabolic potentials of longissimus and semitendinosus muscles from young Friesian bulls, 2298
Capillary Electrophoresis
39A, 53A
Caprine
2A, 13A
Carbohydrates
199A, 224A, 240A, 69B
Influence of non-fibrous carbohydrate and degradable intake protein on fermentation by ruminal microorganisms in continuous culture, 2464
Carbon 13
67B
Carbon Dioxide
260A
Laboratory and field evaluation of commercial feed preservatives in the diet of nursery pigs, 572
Carcass Characteristics
Performance and carcass characteristics of weaned lambs either grazed on orchardgrass, ryegrass or alfalfa or fed all-concentrate diets in drylot, 3230
Carcass Composition
182A, 206A, 250A, 270A, 326A, 366A, 129B
Breed effects and retained heterosis for growth, carcass, and meat traits in advanced generations of composite populations of beef cattle, 833
Carcass characteristics and optimal slaughter weights in four breeds of sheep, 932
Effects of grain or pasture finishing systems on carcass composition and tissue accretion rates of lambs, 3138
Effects of restricted feeding on growing steers on performance, carcass characteristics, and composition, 2497
Effects of restricted feeding on growth performance and carcass composition of lambs, 3131
Effects of the interrelationship between genotype, sex, and dietary lysine on growth performance and carcass composition in finishing pigs fed to either 104 or 127 kilograms, 946
Influence of dietary background on the response of pigs to the β-adrenergic agonist BRL 47672, 1516
Influence of dietary lysine on growth and carcass composition of high-lean-growth gilts fed from 34 to 72 kilograms, 1761
Influence of production and postmortem technologies on composition and palatability of USDA select grade beef, 1224
Lipid composition of carcass tissue from transgenic pigs expressing a bovine growth hormone gene, 1242
Performance, clinical chemistry, and carcass responses of finishing lambs to formulated sometribove (methionyl bovine somatotropin), 2544
Technical note: Chemical composition of Angus and Holstein carcasses predicted from rib section composition, 1239
The impact of ractopamine, energy intake, and dietary fat on finisher pig growth performance and carcass merit, 3152
Carcass Grading
180A, 370A, 34B
The efficacy of adding a minimum adjusted fat thickness requirement to the USDA beef quality grading standards for select grade beef, 1502
Carcass Quality
10B, 48B, 54B, 108B, 109B
Comparison of live animal and carcass equations predicting percentage of cutability, retail product weight, and trimmable fat in beef cattle, 1107
Composition, preservation, and use of sea clam viscera as a protein supplement for growing pigs, 546
Effect of the addition of live yeast (*Saccharomyces cerevisiae*) on growth and carcass quality of steers fed high-forage or high-grain diets and on feed digestibility and in situ degradability, 537
Carcass Traits
60A, 108A, 109A, 183A, 200A, 220A, 273A, 315A, 5B, 26B, 53B, 62B
Evaluation of machine, technician, and interpreter effects on ultrasonic measures of backfat and longissimus muscle area in beef cattle, 2216
Carcass Yield
60A, 269A, 347A
Comparison of live animal and carcass equations predicting percentage of cutability, retail product weight, and trimmable fat in beef cattle, 1107
Carcasses
62A, 63A, 99A, 108A, 110A, 190A, 236A, 248A, 249A, 258A, 269A, 289A, 329A, 367A, 24B, 26B, 39B, 45B, 52B, 55B, 62B, 79B, 89B, 106B, 109B
Bioelectrical impedance analysis for the prediction of fat-free mass in lambs and lamb carcasses, 322
Bioelectrical impedance can predict skeletal muscle and fat-free skeletal muscle of beef cows and their carcasses, 3118
Bioelectrical impedance can predict skeletal muscle and fat-free skeletal muscle of beef cow primal cuts, 3124

Breed differences and genetic parameters for body composition traits in beef cattle, 2745
Carcass composition of "Bob" and "Special-fed" veal and its prediction, 2635
Dietary energy source and density: Effects of roughage source, roughage equivalent, tallow level, and steer type on feedlot performance and carcass characteristics, 1943
Growth and carcass quality of prolific crossbred lambs fed silage with fish meal or different amounts of concentrate, 1849
Interactive effects among porcine somatotropin, the beta-adrenergic agonist salbutamol, and dietary lysine on growth performance and nitrogen balance of finishing swine, 1540
Prediction of live and carcass characteristics of market hogs by use of a single longitudinal ultrasonic scan, 1409
Predicting total weight of retail-ready lamb cuts from bioelectrical impedance measurements taken at the processing plant, 1467
Predictors of beef tenderness among carcasses produced under commercial conditions, 1492

Bioavailability of feed-grade copper sources (oxide, sulfate, or lysine) in growing cattle, 2728
Breed effects and retained heterosis for growth, carcass, and meat traits in advanced generations of composite populations of beef cattle, 833
Breed effects, dietary energy density effects, and retained heterosis on different measures of gain efficiency in beef cattle, 1138
Breed effects, retained heterosis, and estimates of genetic and phenotypic parameters for carcass and meat traits of beef cattle, 1174
Dietary electrolyte balance effects on performance and metabolic characteristics in finishing steers, 1600
Dietary electrolyte balance effects on performance and metabolic characteristics in growing steers, 1842
Digestion characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3213
Effect of dietary canola on fatty acid composition of bovine adipose tissue, muscle, kidney, and liver, 2735
Effect of dietary copper, iron, and molybdenum on growth and copper status of beef cows and calves, 2722
Effect of feeding regimen on concentration of free endotoxin in ruminal fluid of cattle, 487
Effect of sequential implanting with Synovex on steer and heifer performance, 1095
Effects of anabolic steroids on nitrogen metabolism and growth of steers fed corn silage and corn-based diets supplemented with urea or combinations of soybean meal and feathermeal, 515
Effects of basic fibroblast growth factor and heparin on follicle-stimulating hormone-induced steroidogenesis by bovine granulosa cells, 2696
Effects of blastocoelic expansion and plasminogen activator activity on hatching and zona pellucida solubility in bovine embryos in vitro, 2936
Effects of mastication on digestion of whole cereal grains by cattle, 236
Endocrine responses and body composition changes during feed restriction and realimentation in young bulls, 2289
Follicular dynamics, embryo production, and hormonal responses in Brahman heifers following sympathetic stimulation, 2948
Forage level and particle size effects on orchardgrass digestion by steers: I. Site and extent of organic matter, nitrogen, and cell wall digestion, 746
Forage level and particle size effects on orchardgrass digestion by steers: II. Ruminal digestion kinetics of cell wall components, 759
Growth and carcass characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3221
Growth and development of bovine fetuses and neonates representing three genotypes, 2307
Growth efficiency and digestibility of heated protein fed to growing ruminants, 774
Histological populations and atresia of ovarian follicles in postpartum cattle treated with an agonist of gonadotropin-releasing hormone, 192
Influence of corpus luteum and induced ovulation on ovarian follicular dynamics in postpartum cycling cows treated with buserelin and cloprostenol, 1796
Influence of flake thickness on the feeding value of steam-rolled wheat for feedlot cattle, 21
Influence of grazing cattle and sheep together and separately on animal performance and forage quality, 1013
Pine needle abortion in cattle: Effects of diet variables on consumption of pine needles and parturition response, 805
Rapid communication: *Bam*HI and *Taq*I restriction fragment length polymorphisms in the bovine *uroplakin IA* gene, 1908
Rapid communication: *Hin*fI polymorphism at the bovine *PIT1* locus, 3267
Rapid communication: Polymerase chain reaction-restriction fragment length polymorphism in the *bovine growth hormone* gene, 2203
Rapid communicaton: *Pst*I, *Hin*dIII and *Taq*I restriction fragment length polymorphisms in the bovine *uroplakin IB* gene, 1909
Ruminal digestion and glycosyl linkage patterns of cell wall components from leaf and stem fractions of alfalfa, orchardgrass, and wheat straw, 1362
Screening of depigmenting compounds for the development of an alternate method of branding beef cattle, 1393
Serum growth hormone-binding protein (GHBP) in domestic animals as measured by ELISA, 1719
Serum neutralizing antibodies against *Fusobacterium necrophorum* leukotoxin in cattle with experimentally induced or naturally developed hepatic abscesses, 502
Stearoyl coenzyme A desaturase enzyme activity and mRNA levels are not different in subcutaneous adipose tissue from Angus and American Wagyu steers, 2624
Steers grazing intermediate wheatgrass at various stages of maturity: Effects on nutrient quality, forage intake, digesta kinetics, ruminal fermentation, and serum hormones and metabolites, 478
Supplemental protein for beef cattle grazing dormant intermediate wheatgrass pasture: Effects on nutrient quality, forage intake, digesta kinetics, grazing behavior, ruminal fermentation, and digestion, 2113
Technical note: Chemical composition of Angus and Holstein carcasses predicted from rib section composition, 1239
The effect of cimaterol on muscle fiber characteristics, capillary supply, and metabolic potentials of longissimus and semitendinosus muscles from young Friesian bulls, 2298
Utilization of grass silage by cattle: Effect of supplementation with different sources and amounts of protein, 1403
Wet corn distillers byproducts compared with dried corn distillers grains with solubles as a source of protein and energy for ruminants, 3246
Cattle Cooling

343A
Characteristics
Effect of dietary calcium concentrations during gestation and lactation in the sow on milk composition and litter growth, 1315
Cheeses
2A, 3A, 4A, 5A, 6A, 9A, 13A, 14A, 15A, 17A, 19A, 20A, 21A, 22A, 24A, 25A, 26A, 28A, 30A, 32A, 33A, 34A, 38A, 39A, 40A, 41A, 42A, 48A, 54A
Chelated Minerals
96A
Chelates
273A, 7B
Efficacy of a copper-lysine complex as a growth promotant for weanling pigs, 2880
Chemical Composition
48A, 308A, 364A
Isolation and characteristics of the protozoal and bacterial fractions from bovine ruminal contents, 2962
The effect of live weight gain and live weight loss on body composition of Merino wethers: Chemical composition of the noncarcass organs and the empty body, 3098
Chemical Treatment
193A
Chemiluminescence
30A
Chemiluminescent Probe
47A
Chewing Behavior
382A
Chewing Gum and Packaging
136A
Chickens
259A, 2B, 132B
Biological availability of phosphorus in defluorinated phosphates with different phosphorus solubilities in neutral ammonium citrate for chicks and pigs, 2653
Characterization of the nutritional interactions between organic acids and inorganic bases in the pig and chick, 1257
Children
139A
Chilling
Influence of production and postmortem technologies on composition and palatability of USDA select grade beef, 1224
Chimeric
373A
Chloride
62B
Chlortetracycline
41B
Effect of dietary chlortetracycline during breeding and(or) farrowing and lactation on reproductive performance of sows: A cooperative study, 3169
Choice Feeding
219A, 61B, 64B
Cholesterol
23A, 101A, 218A, 270A, 304A, 329A
Concentrations of inorganic elements in milk of sows selected for high and low serum cholesterol, 1399
Lipid composition of carcass tissue from transgenic pigs expressing a bovine growth hormone gene, 1242
Serum cholesterol concentration of mice selected for litter size and its relationship to litter size and testis mass, 2943
The effects of high-forage diets with added palm oil on performance, plasma lipids, and carcass characteristics of ram lambs with initially high or low plasma cholesterol, 330
Cholesterol 7α-Hydroxylase
Rapid communication: A *Taq*I restriction fragment length polymorphism at the porcine *cholesterol 7α-hydroxylase (CYP7)* locus, 797
Choline
186A
Cholinergic Agonist
383A
Chondrocyte
74A
Chromatofocusing
14B
Chromatography
26A
Chromic Oxide
Evaluation of the captec controlled-release chromic oxide capsule for fecal output determination in sheep, 1375
Chromium
97A, 132A, 133A, 159A, 184A, 257A, 273A, 274A, 66B
Influence of chromium picolinate on glucose usage and metabolic criteria in growing Holstein calves, 1591
Chromium Nicotinate
275A
Chromium Picolinate
273A, 62B
Chromosome
102A
Chromosome Segment
249A
Chymosin Sensitive Linker
39A
Circadian Rhythm
154A
Circadian fluctuation in heat production of young calves at different ambient temperatures in relation to posture, 598
Energy cost of standing and circadian changes in energy expenditure in the preruminant calf, 2131
Influence of light dark cycles on estradiol-17β induced luteinizing hormone patterns of the prepuberal gilt, 1995
Cis Trans Fatty Acids
288A
Citrate
17B

Clam Viscera
128B
Composition, preservation, and use of sea clam viscera as a protein supplement for growing pigs, 546
Clean Fleece Weight
97B
Cleared Fat Pad
117A
Clenbuterol
Tissue distribution and residues of clenbuterol, salbutamol, and terbutaline in tissues of treated broiler chickens, 1555
Clinical Mastitis

Dietary History
Effects of early experience on voluntary intake of low-quality roughage by sheep, 1191
Dietary Protein
184A
Effects of anabolic steroids on nitrogen metabolism and growth of steers fed corn silage and corn-based diets supplemented with urea or combinations of soybean meal and feathermeal, 515
Influence of dietary protein and recombinant porcine somatotropin administration in young pigs: III. Muscle fiber morphology and shear-force, 615
Diets
218A, 252A, 259A, 270A, 324A, 329A, 44B, 58B, 59B, 60B, 61B, 129B
Diet effects and ontogeny of alterations of circulating insulin-like growth factor binding proteins in newborn dairy calves, 421
Dietary electrolyte balance effects on performance and metabolic characteristics in finishing steers, 1600
Effects of dietary insulin-like growth factor I on growth and insulin-like growth factor receptors in neonatal calf intestine, 428
Pine needle abortion in cattle: Effects of diet variables on consumption of pine needles and parturition response, 805
Serum and tissue tocopherol in sheep after intramuscular injection and(or) dietary vitamin E supplementation, 739
The effect of flavor concentration and toxin dose on the formation and generalization of flavor aversions in lambs, 10
The effect of spray-dried porcine plasma on growth performance in the early-weaned pig, 2075
The effects of high-forage diets with added palm oil on performance, plasma lipids, and carcass characteristics of ram lambs with initially high or low plasma cholesterol, 330
Differential Scanning Calorimetry
43A
Differentiation
72A, 283A
Effect of age on the differentiation of porcine adipose stromal-vascular cells in culture, 282
Digesta
106B
Digesta Kinetics
Whole tract digesta kinetics and comparison of techniques for the estimation of fecal output in steers fed coastal bermudagrass hay at four levels of intake, 201
Digestibility
37A, 90A, 99A, 115A, 136A, 165A, 167A, 170A, 185A, 193A, 194A, 213A, 216A, 217A, 221A, 223A, 235A, 236A, 251A, 279A, 302A, 303A, 350A, 387A, 6B, 55B, 57B, 83B, 113B, 114B, 120B, 125B, 130B
Apparent digestibility and retention of nutrients bound to phytate complexes as influenced by microbial phytase and feeding regimen in pigs, 126
Co-product fiber digestibility: Kinetic and in vivo assessment, 790
Determination of apparent ileal amino acid digestibility in pigs: Effect of dietary amino acid level, 2851
Digestibility of alkali-treated wheat straw measured in vitro or in vivo using Holstein heifers, 3258
Digestibility, nitrogen utilization, and voluntary intake of ensiled crab waste-wheat straw mixtures fed to sheep, 565
Digestible threonine requirements of starter and finisher pigs, 144
Effect of frequency of supplementation and protein concentration in supplements on performance and digestion characteristics of beef cattle consuming low-quality forages, 2475
Effect of lecithin on the apparent ileal and overall digestibility of crude fat and fatty acids in pigs, 2022
Effect of level of dietary neutral detergent fiber on ileal apparent digestibility and ileal nitrogen losses in pigs, 2362
Effect of the addition of live yeast (*Saccharomyces cerevisiae*) on growth and carcass quality of steers fed high-forage or high-grain diets and on feed digestibility and in situ degradability, 537

Effects of chemically treated, recycled newsprint on feed intake and nutrient digestibility by growing lambs, 2508
Effects of energy density and protein source on diet digestibility and performance of calves after arrival at the feedlot, 1616
Effects of mastication on digestion of whole cereal grains by cattle, 236
Effects of replacing milk and soybean products with wheat glutens on digestibility of nutrients and growth performance in nursery pigs, 151
Effects of supplemental feeding on intake by kid, yearling, and adult Angora goats on rangeland, 768
Evaluation of acid detergent insoluble nitrogen as an indicator of protein quality in nonforage proteins, 1043
Feed intake and apparent digestibility of hay-supplemented brassica diets for lambs, 1623
Improved soybean protein sources for early-weaned pigs: I. Effects on performance and total tract amino acid digestibility, 622
Improved soybean protein sources for early-weaned pigs: II. Effects on ileal amino acid digestibility, 631
Performance and forage utilization by beef cattle receiving increasing amounts of alfalfa hay as a supplement to low-quality, tallgrass-prairie forage, 1059
The effect of dietary fat content on amino acid digestibility in young pigs, 1737
The effect of fat inclusion on diet digestibility in growing rabbits, 1508
The influence of restricted feeding on site and extent of digestion and flow of nitrogenous compounds to the duodenum in steers, 2487
Digestibility Markers
138A
Digestible Energy
Energy value of medium-chain triglycerides and their efficacy in improving survival of neonatal pigs, 133
The effects of lysine:energy ratio on the performance of weanling pigs, 1247
Digestion
136A, 193A, 262A, 309A, 337A, 6B, 80B, 82B, 119B, 130B
Effects of feeding high-concentrate diets at restricted intakes on digestibility and nitrogen metabolism in growing lambs, 1583
Forage level and particle size effects on orchardgrass digestion by steers: I. Site and extent of organic matter, nitrogen, and cell wall digestion, 746
Forage level and particle size effects on orchardgrass digestion by steers: II. Ruminal digestion kinetics of cell wall components, 759
Influence of crambe meal as a protein source on intake, site of digestion, ruminal fermentation, and microbial efficiency in beef steers fed grass hay, 3238
Influence of moisture content of forage diets on intake and digestion by sheep, 2455
Influence of *sugary-Brawn2* or dent corn at two forage levels on intake, digestion, and milk production by dairy cows, 220
Influence of yeast culture supplementation and advancing season on steers grazing mixed-grass prairie in the Northern Great Plains: I. Dietary composition, intake, and in situ nutrient disappearance, 2149
Influence of yeast culture supplementation and advancing season on steers grazing mixed-grass prairie in the Northern Great Plains: II. Ruminal fermentation, site of digestion, and microbial efficiency, 2158
Kinetics of fiber digestion from in vitro gas production, 2980
Ruminal digestion and glycosyl linkage patterns of cell wall components from leaf and stem fractions of alfalfa, orchardgrass, and wheat straw, 1362
Steers grazing intermediate wheatgrass at various stages of maturity: Effects on nutrient quality, forage intake, digesta kinetics, ruminal fermentation, and serum hormones and metabolites, 478
The influence of intake level and corn processing on digestibility and ruminal metabolism in steers fed all-concentrate diets, 1608
Digestion Rates

A bioeconomic model for comparing beef cattle genotypes at their optimal economic slaughter end point, 38
Dietary electrolyte balance effects on performance and metabolic characteristics in finishing steers, 1600
Feeds
135A, 185A, 321A
Effect of body weight on net energy value of feeds for growing pigs, 648
Feet
156A
Female
75B
Fenbendazole
49B
Fenprostalene
17B
Fermentation
16A, 113A, 138A, 167A, 261A, 276A, 302A
Influence of crambe meal as a protein source on intake, site of digestion, ruminal fermentation, and microbial efficiency in beef steers fed grass hay, 3238
Influence of yeast culture supplementation and advancing season on steers grazing mixed-grass prairie in the Northern Great Plains: II. Ruminal fermentation, site of digestion, and microbial efficiency, 2158
Steers grazing intermediate wheatgrass at various stages of maturity: Effects on nutrient quality, forage intake, digesta kinetics, ruminal fermentation, and serum hormones and metabolites, 478
Supplemental protein for beef cattle grazing dormant intermediate wheatgrass pasture: Effects on nutrient quality, forage intake, digesta kinetics, grazing behavior, ruminal fermentation, and digestion, 2113
Fermented Carbohydrate
189A
Fermented Dairy Food
25A
Ferric
371A
Fertility
87A, 173A, 230A, 280A, 292A, 294A, 367A, 372A, 117B, 123B
Effect of administration of human chorionic gonadotropin or progesterone before maternal recognition of pregnancy on blastocyst development and pregnancy in sheep, 453
Fertility of range beef bulls grouped according to presence or absence of heparin-binding proteins in sperm membranes and seminal fluid, 2441
Fertilization
372A, 374A, 2B
Fescue
144A, 155A, 283A, 306A, 336A, 341A, 31B
Fescue Fungal Endophyte
30B
Fescue Toxicosis
31B
Variation among inbred and linecross mice in response to fescue toxicosis, 2896
Festuca arundinacea
32B
Influence of alkaloid concentration of tall fescue straw on the nutrition, physiology, and subsequent performance of beef steers, 1068
Variation among inbred and linecross mice in response to fescue toxicosis, 2896
Fetal Bovine Serum
9A
Fetus
70A, 73A, 281A
Growth and development of bovine fetuses and neonates representing three genotypes, 2307
The influence of maternal nutrition on muscle fiber number development in the porcine fetus and on subsequent postnatal growth, 911
Fiber
113A, 114A, 115A, 137A, 169A, 223A, 224A, 225A, 245A, 261A, 307A, 308A, 337A, 342A, 355A, 6B, 55B, 101B, 118B
Effect of bulky diets based on wheat bran or oat hulls on reproductive performance of sows during their first two parities, 1754
Effect of level of dietary neutral detergent fiber on ileal apparent digestibility and ileal nitrogen losses in pigs, 2362
Effects of dietary fiber on intestinal growth, cell proliferation, and morphology in growing pigs, 2270
Kinetics of fiber digestion from in vitro gas production, 2980
Fiber Growth
The nutritional control of the growth and properties of mohair and wool fibers: A comparative review, 1899
Fiber Optics
Comparison of AOAC and light spectroscopy analyses of uncooked, ground beef, 925
Fiber-Cr Mordant
195A
Fibrobacter
338A
Fibroblasts
71A, 283A, 284A
Effects of basic fibroblast growth factor and heparin on follicle-stimulating hormone-induced steroidogenesis by bovine granulosa cells, 2696
Filter Bag Technique
114A
Financial Performance
126A
Finisher
5B
Finishing
137A, 299A, 303A, 22B, 82B, 90B
The value of creep feeding during the last 84, 56, or 28 days prior to weaning on growth performance of nursing calves grazing endophyte-infected tall fescue, 1084
Finishing System
Effects of grain or pasture finishing systems on carcass composition and tissue accretion rates of lambs, 3138
Firmness
Effect of biological type of cattle on the incidence of the dark, firm, and dry condition in the longissimus muscle, 337
Fish
199A
Fish Meal
246A, 355A, 386A, 29B, 109B
Growth and carcass quality of prolific crossbred lambs fed silage with fish meal or different amounts of concentrate, 1849
Utilization of grass silage by cattle: Effect of supplementation with different sources and amounts of protein, 1403
Fish Oil
350A
Fitness Trait
146A

Fixed Effects
40B
Flavor
25A, 42A, 86B
Flooding Dose
53B
Floor
333A
Flourensia cernua
168A
Flow
87B
Foals
262A
Maternal influences on growth and development of full-sibling foals, 1661
Foaming Properties
2A, 11A
Folic Acid
An assessment of dietary folic acid levels during gestation and lactation on reproductive and lactational performance of sows: A cooperative study, 2338
Concentrations of folates in ruminal content of steers: Responses to a dietary supplement of folic acid in relation with the nature of the diet, 1023
Follicle Wave Synchronization
81A
Follicles
76A, 142A, 143A, 175A, 176A, 229A, 230A, 231A, 284A, 390A, 17B, 73B, 78B, 124B, 16C
Acute progesterone administration regresses persistent dominant follicles and improves fertility of cattle in which estrus was synchronized with melengestrol acetate, 2955
Administration of testosterone during the follicular phase increased the number of corpora lutea in gilts, 2930
Histological populations and atresia of ovarian follicles in postpartum cattle treated with an agonist of gonadotropin-releasing hormone, 192
Influence of corpus luteum and induced ovulation on ovarian follicular dynamics in postpartum cycling cows treated with buserelin and cloprostenol, 1796
Morphological and functional characteristics of preovulatory follicles in Large White and Meishan gilts, 2099
Production of tissue inhibitor of metalloproteinases-1 by porcine follicular and luteal cells, 1004
Technical note: A radioimmunoassay for porcine retinol binding protein, 2449
Follicular Phase
77B
Food Grade Procedures
13A
Food Safety
46A, 110A, 320A, 378A, 100B
Student opinion formation on animal agriculture issues, 1654
Food Service
Foodservice industry market profile study: Nutritional and objective textural profile of foodservice ground beef, 1487
Food Waste
137A
Foods
268A, 320A
Footrot
41B
Forage
64A, 90A, 110A, 113A, 115A, 158A, 168A, 169A, 170A, 192A, 195A, 225A, 269A, 276A, 278A, 301A, 308A, 330A, 350A, 357A, 360A, 368A, 387A, 84B, 87B, 88B, 100B, 105B, 112B, 118B, 130B
Effects of grain or pasture finishing systems on carcass composition and tissue accretion rates of lambs, 3138
Feed intake and apparent digestibility of hay-supplemented brassica diets for lambs, 1623
Forage level and particle size effects on orchardgrass digestion by steers: I. Site and extent of organic matter, nitrogen, and cell wall digestion, 746
Forage level and particle size effects on orchardgrass digestion by steers: II. Ruminal digestion kinetics of cell wall components, 759
Influence of moisture content of forage diets on intake and digestion by sheep, 2455
Interaction of forage level and monensin in diets for feedlot cattle on growth performance and digestive function, 2209
Performance and carcass characteristics of weaned lambs either grazed on orchardgrass, ryegrass or alfalfa or fed all-concentrate diets in drylot, 3230
Performance and forage utilization by beef cattle receiving increasing amounts of alfalfa hay as a supplement to low-quality, tallgrass-prairie forage, 1059
Relationships among ewe milk production and ewe and lamb forage intake in Targhee ewes nursing single or twin lambs, 811
Ruminal digestion and glycosyl linkage patterns of cell wall components from leaf and stem fractions of alfalfa, orchardgrass, and wheat straw, 1362
Forage Breeding
90A
Forage Protein
385A, 387A
Formaldehyde
193A
Formic Acid
164A
Fortification
25A, 34A, 42A, 89A
Fostering
208A
Fostering in swine as affected by age of offspring, 1697
Fouling
33A
Fractal Dimensions
323A
Fractionation
35A, 43A
Frame Size
124A
Frankfurters
32B, 110B
Free Fatty Acids
13A
Freestalls
154A, 157A
Freeze Drying
18A
Freezing
34B
Frequency
Effect of frequency of supplementation and protein concentration in supplements on performance and digestion characteristics of beef cattle consuming low-quality forages, 2475
Measuring intramuscular fat in beef with ultrasonic frequency analysis, 117
Fructooligosaccharide
251A
Full-Brother Model
319A
Fumaric Acid
164A
Functional Properties
7A, 24A, 32A, 34A, 35A, 37A
Fungal Biomass
278A
Fungal Treatment
168A
Fungi
299A, 120B
Microbial attachment and feed digestion in the rumen, 3004
Fur Quality
Selection for litter size, body weight, and pelt quality in mink (*Mustela vison*): Correlated responses, 1126
Furosemide
77A
Fusion Protein
39A
Fusobacterium necrophorus
Serum neutralizing antibodies against *Fusobacterium necrophorum* leukotoxin in cattle with experimentally induced or naturally developed hepatic abscesses, 502

G

G Proteins
210A
GLUT4
Cloning of a pig Glucose Transporter 4 cDNA fragment: Use in developing a sensitive ribonuclease protection assay for quantifying low-abundance Glucose Transporter 4 mRNA in porcine adipose tissue, 1196
Gain
56B
Gain Efficiency
337A, 381A
Galactokinase
48A
Galactopoietic
177A
Gamma-Glutamyltransferase
104A
Gap Junction
80A
Gas
302A
Kinetics of fiber digestion from in vitro gas production, 2980
Gastric Cannulation
264A
Gastric Ulcers

Gel-Polarized
27A
Gelatinase
85A, 121A
Gene Cloning
314A
Gene Expression
106A, 314A, 3B, 131B
Effects of serum and insulin-like growth factor I on protein degradation and protease gene expression in rat L8 myotubes, 2279
Gene Mapping
314A, 315A, 35B, 36B, 38B
Gene Regulation
38B
Gene Targeting
1C
Generalized Linear Models
39B
Genes
Rapid communication: Diallelic single-stranded conformational polymorphism detected in the bovine *prolactin* gene, 256
Genetic Analysis
Additive genetic groups for animals evaluated in more than one breed association national cattle evaluation, 2559
Genetic Change
Implications of genetic changes in body composition on beef production systems, 2756
Genetic Components
28B
Genetic Conservation
27B
Genetic Correlation
147A, 148A, 203A, 97B
Cumulative selection and genetic change for weaning or yearling weight or for yearling weight plus muscle score in Hereford cattle, 864
Estimates of genetic parameters for males and females 320-day pelvic measurements of calving ease of 2-year-old females, 1954
Genetic parameters for growth rate and backfat in Canadian Yorkshire, Landrace, Duroc, and Hampshire pigs, 1450
Heritabilities and phenotypic and genetic correlations for bovine postrigor calpastatin activity, intramuscular fat content, Warner-Bratzler shear force, retail product yield, and growth rate, 857
Ten generations of selection for predicted weight of testes in swine: Direct response and correlated response in body weight, backfat, age at puberty, and ovulation rate, 1978
Genetic Distance
36B
Genetic Engineering
247A
Genetic Evaluation
318A, 319A
Genetic Improvement
62A
Genetic Markers
59A, 102A, 248A, 249A, 250A, 317A, 96B, 120B
Rapid communication: A unique *Sac*II restriction fragment length polymorphism in mitochondrial DNA of sheep and goats, 796
Rapid communication: Diallelic single-stranded conformational polymorphism detected in the bovine *prolactin* gene, 256
Rapid communication: *Hin*fI polymorphism at the bovine *PIT1* locus, 3267
Rapid communication: PCR-based *Sau96*I polymorphism in the bovine *lipoprotein lipase* gene, 3032
Rapid communication: Polymerase chain reaction-restriction fragment length polymorphism in the *bovine growth hormone* gene, 2203
Rapid communication: Restriction fragment length polymorphisms at the porcine *transporter associated with antigen processing 1* (TAP1) locus, 255
Genetic Parameters
203A, 206A, 97B
Breed differences and genetic parameters for body composition traits in beef cattle, 2745
Breed effects, retained heterosis, and estimates of genetic and phenotypic parameters for carcass and meat traits of beef cattle, 1174
Estimation of variance components for lamb weights in three sheep populations, 1184
Genetic correlations in the feed conversion complex of primiparous cows at a recommended and a reduced plane of nutrition, 1441
Genetic parameters for litter size of different parities in Duroc, Landrace, and Large White Sows, 2237
Genetic parameters for milk production of Australian beef cows and weaning weight of their calves, 1155
Restricted maximum likelihood procedures for the estimation of additive and nonadditive genetic variances and covariances in multibreed populations, 3055
Genetic Prediction
57A, 205A
Genetic Trend
88A, 203A, 266A, 267A, 28B
Cumulative selection and genetic change for weaning or yearling weight or for yearling weight plus muscle score in Hereford cattle, 864
Genetic analysis of calving date in Miles City line 1 Hereford cattle, 3073
Genetic Variants
6A
Genetic Variation Pigs
Concentrations of inorganic elements in milk of sows selected for high and low serum cholesterol, 1399
Genetics
140A, 155A, 179A, 218A, 249A, 319A
Life cycle evaluation of five biological types of beef cattle in a cow-calf range production system: I. Model development, 2585
Quantitative- and molecular-genetic effects on animal well-being: Adaptive mechanisms, 1641
Rapid communication: A *Pst*I restriction fragment length polymorphism at the sheep locus for myelin basic protein (*MBP*) probe, 3266
Genome
102A
Genome Mapping
101A, 36B
Genomic DNA
10A
Genotype Nutrition Interaction
Productivity through weaning of nine breeds of cattle under varying feed availabilities: I. Initial evaluation, 2787
Genotype-Environment Interaction
219A

Genotypes
165A, 323A, 333A, 364A, 66B
Effects of the interrelationship between genotype, sex, and dietary lysine on growth performance and carcass composition in finishing pigs fed to either 104 or 127 kilograms, 946
Influence of dietary lysine on growth and carcass composition of high-lean-growth gilts fed from 34 to 72 kilograms, 1761
Gentamicin
5A
Geometry
The mechanical properties of equine third metacarpals as affected by age, 2617
Germ Line
73B
Gestation Period
79A, 182A
Effect of dietary chlortetracycline during breeding and(or) farrowing and lactation on reproductive performance of sows: A cooperative study, 3169
Gibbs Sampling
58A
Gilts
68A, 177A, 281A, 334A, 42B, 46B, 52B, 56B, 128B
Administration of porcine somatotropin by a sustained-release implant: Effects on follicular growth, concentrations of steroids and insulin-like growth factor I, and insulin-like growth factor binding protein activity in follicular fluid of control, lean, and obese gilts, 2431
Effects of dietary energy intake by gilts and heat stress from days 3 to 24 or 30 after mating on embryo survival and nitrogen and energy balance, 2369
Electronic animal identification for controlling feed delivery and detecting estrus in gilts and sows in outside pens, 891
In vivo estimation of body composition of mature gilts using live weight, backfat thickness, and deuterium oxide, 355
Influence of dietary lysine on growth and carcass composition of high-lean-growth gilts fed from 34 to 72 kilograms, 1761
Nutritional manipulation of growth and metabolic and reproductive status in prepubertal gilts, 2415
Postpartum hypophagia in primiparous sows: II. Effects of feeding level during gestation and exogenous insulin on lactation feed intake, glucose tolerance, and epinephrine-stimulated release of nonesterified fatty acids and glucose, 395
GlcNAc-1-P-Transferase
228A
Glucan
57B
Glucocorticoids
144A
Gluconeogenesis
78A
Glucose
68A, 132A, 138A, 178A, 184A, 191A, 226A, 228A, 264A, 337A, 389A, 106B, 115B
Comparison of insulin infusion sites on metabolite net flux and insulin kinetics in growing euglycemic beef steers, 990
Effect of intraruminal propionic acid infusion on metabolism of mesenteric- and portal-drained viscera in growing steers fed a forage diet: I. Volatile fatty acids, glucose, and lactate, 1325
Metabolite flux across postal-drained viscera, liver, and hindquarters of hyperinsulinemic, euglycemic beef steers, 2919
Plasma concentrations of prolactin, glucose, insulin, urea nitrogen, and total amino acids in stallions after ingestion of feed or gastric administration of feed components, 2345
Postpartum hypophagia in primaparous sows: I. Effects of gestation feeding level on feed intake, feeding behavior, and plasma metabolite concentrations during lactation, 387
Postpartum hypophagia in primiparous sows: II. Effects of feeding level during gestation and exogenous insulin on lactation feed intake, glucose tolerance, and epinephrine-stimulated release of nonesterified fatty acids and glucose, 395
Glucose Tolerance
257A, 288A
Influence of chromium picolinate on glucose usage and metabolic criteria in growing Holstein calves, 1591
Glucose Transport
Cloning of a pig Glucose Transporter 4 cDNA fragment: Use in developing a sensitive ribonuclease protection assay for quantifying low-abundance Glucose Transporter 4 mRNA in porcine adipose tissue, 1196
Glucose Transport Proteins
Limitations of ractopamine to affect adipose tissue metabolism in swine, 62
Glucosuria
Insulin resistance, hyperglycemia, and glucosuria in intensively milk-fed calves, 160
Glutamine
226A, 242A
Glycerophosphate Acyltransferase
Palmitate esterification and glycerophosphate acyltransferase activity in adipose tissue of growing lambs, 81
Glycine
191A
Glycogen
Utilization of colostral energy by the newborn pig, 2082
Glycoproteins
228A
GnRH
64A, 121A, 122A, 143A, 173A, 178A, 179A, 230A, 285A, 292A, 325A, 380A, 15B, 45B
Effect of gonadotropin-releasing hormone on estrus, ovulation, and ovum cleavage rates of dairy cows, 719
Effect of various doses of a gonadotropin-releasing hormone analogue on induction of ovulation in anestrous mares, 178
Gonadotropin-releasing hormone-induced secretion of luteinizing hormone in postpartum beef heifers maintained on two planes of nutrition before and after breeding, 998
Histological populations and atresia of ovarian follicles in postpartum cattle treated with an agonist of gonadotropin-releasing hormone, 192
Influence of a gonadotropin-releasing hormone agonist on circulating concentrations of luteinizing hormone and testosterone and tissue concentrations of compounds associated with boar taint, 1290
Influence of corpus luteum and induced ovulation on ovarian follicular dynamics in postpartum cycling cows treated with buserelin and cloprostenol, 1796
Rapid communication: Nucleotide sequence of luteinizing hormone-releasing hormone (LHRH) receptor cDNA in the pig pituitary, 1911
Use of gonadotropin-releasing hormone, estrogen, or a combination to increase releasable pituitary luteinizing hormone in early transitional mares, 174
Goals
196A, 357A
Goat Cheese
13A
22A
179A
Goat Milk
25A, 49A
Goats
10A, 13A, 84A, 144A, 145A, 151A, 179A, 180A, 186A, 192A, 206A, 208A, 227A, 258A, 313A, 342A, 343A, 356A, 28B
Blood metabolite and regulatory hormone concentrations and response to metabolic challenges during the infusion of mimosine and 2,3-dihydroxypyridine in Alpine goats, 415
Dietary hydrated sodium calcium aluminosilicate reduction of aflatoxin M1 residue in dairy goat milk and effects on milk production and components, 677
Effects of photoperiod and slow-release preparations of bromocryptine and melatonin on reproductive activity and prolactin secretion in female goats, 955
Effects of supplemental feeding on intake by kid, yearling, and adult Angora goats on rangeland, 768
Evaluation of the optical fibre diameter analyser (OFDA) for measuring fiber diameter parameters of sheep and goats, 1675
Exposure to constant photoperiod alters serum prolactin concentrations and behavioral response to estradiol in the ovariectomized goat, 3088
Rapid communication: A unique *Sac*II restriction fragment length polymorphism in mitochondrial DNA of sheep and goats, 796
Gonadotroph
122A

Gonadotropins
284A, 16B, 73B, 128B
Morphological and functional characteristics of preovulatory follicles in Large White and Meishan gilts, 2099
Nutritional manipulation of growth and metabolic and reproductive status in prepubertal gilts, 2415
Gossypol
145A, 382A
Growth and reproductive development in Brahman bulls fed diets containing gossypol, 445
Graafian Follicles
Effect of melengestrol acetate (MGA) or progesterone-releasing intravaginal device (PRID) on follicular development, concentrations of estradiol-17β and progesterone, and luteinizing hormone release during an artificially lengthened bovine estrous cycle, 1282
Grading
A review of probes and robots: Implementing new technologies in meat evaluation, 1475
Grain
193A, 291A
Grain Processing
345A, 80B

Grass Hays
278A
Grass Silage
Digestion characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3213
Growth and carcass characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3221
Growth and carcass quality of prolific crossbred lambs fed silage with fish meal or different amounts of concentrate, 1849
Utilization of grass silage by cattle: Effect of supplementation with different sources and amounts of protein, 1403
Grazing
115A, 128A, 150A, 156A, 168A, 169A, 222A, 223A, 276A, 290A, 335A, 29B, 84B
Alfalfa and escape protein supplements for grazed corn residues, 3043
Evaluation of Brassicas in grazing systems for sheep: I. Quality of forage and animal performance, 1823
Evaluation of Brassicas in grazing systems for sheep: II. Blood composition and nutrient status, 1832
Influence of grazing cattle and sheep together and separately on animal performance and forage quality, 1013
Performance and carcass characteristics of weaned lambs either grazed on orchardgrass, ryegrass or alfalfa or fed all-concentrate diets in drylot, 3230
Grazing Behavior
Supplemental protein for beef cattle grazing dormant intermediate wheatgrass pasture: Effects on nutrient quality, forage intake, digesta kinetics, grazing behavior, ruminal fermentation, and digestion, 2113
Ground Beef
330A
Foodservice industry market profile study: Nutritional and objective textural profile of foodservice ground beef, 1487
Group Discussion
94B
Grouping
The effects of regrouping on behavioral and production parameters in finishing swine, 2804
Growing-Finishing
219A, 275A, 4B
Growth
4A, 29A, 48A, 60A, 62A, 74A, 89A, 105A, 161A, 166A, 185A, 199A, 200A, 203A, 211A, 214A, 216A, 221A, 243A, 247A, 249A, 253A, 258A, 261A, 262A, 266A, 273A, 275A, 297A, 306A, 324A, 325A, 347A, 359A, 363A, 366A, 371A, 375A, 6B, 11B, 12B, 13B, 25B, 28B, 29B, 46B, 47B, 50B, 52B, 56B, 57B, 59B, 60B, 68B, 70B, 92B, 119B, 128B, 132B
A genetic study of estrous symptoms at puberty and their relationship to growth and leanness in gilts, 1964
An experimental comparison of equivalent terminal and rotational crossbreeding systems in swine: Pig performance, 2578
Carcass characteristics and optimal slaughter weights in four breeds of sheep, 932
Dietary nitrogen and lipid utilization by growing pigs fed structured triacylglycerides synthesized from medium-chain triacylglycerides and menhaden oil, 938
Effect of increasing the dietary level of rapeseed meal on intake by growing beef steers, 1936
Effect of sequential implanting with Synovex on steer and heifer performance, 1095
Effects of Synovex C® implants on growth rate, pelvic area, reproduction, and calving performance of replacement heifers, 292
Effects of anabolic steroids on nitrogen metabolism and growth of steers fed corn silage and corn-based diets supplemented with urea or combinations of soybean meal and feathermeal, 515
Effects of dietary insulin-like growth factor I on growth and insulin-like growth factor receptors in neonatal calf intestine, 428
Effects of replacing milk and soybean products with wheat glutens on digestibility of nutrients and growth performance in nursery pigs, 151
Efficacy of a copper-lysine complex as a growth promotant for weanling pigs, 2880
Efficacy of magnesium-L-ascorbyl-2-phosphate as a vitamin C source for weanling and growing-finishing swine, 2354
Endocrine responses and body composition changes during feed restriction and realimentation in young bulls, 2289
Growth and reproductive development in Brahman bulls fed diets containing gossypol, 445
Growth characteristics of rats receiving ractopamine hydrochloride and the metabolic disposition of ractopamine hydrochloride after oral or intraperitoneal administration, 404
Growth patterns and body composition of transgenic mice expressing mutated bovine somatotropin genes, 2812
Immunological and hematological characterizations of the wasting pig syndrome, 976
Influence of dietary background on the response of pigs to the β-adrenergic agonist BRL 47672, 1516
Influence of dietary lysine on growth and carcass composition of high-lean-growth gilts fed from 34 to 72 kilograms, 1761
Low-protein, crystalline amino acid-supplemented, sorghum-soybean meal diets for the 10- to 20-kilogram pig, 638
Maternal influences on growth and development of full-sibling foals, 1661
Metabolite flux across postal-drained viscera, liver, and hindquarters of hyperinsulinemic, euglycemic beef steers, 2919
Nutritional manipulation of growth and metabolic and reproductive status in prepubertal gilts, 2415
Optimal contemporary group structure to maximize genetic progress through genetic evaluation of swine, 2254
Optimum particle size of corn and hard and soft sorghum for nursery pigs, 2227
Porcine somatotropin (pST) increases IGF-I mRNA abundance in liver and subcutaneous adipose tissue but not in skeletel muscle of growing pigs, 918
Preweaning growth of Yorkshire, Hampshire, and Landrace pigs, 56
Skeletal muscle growth and protein turnover in neonatal boars and barrows, 315
Ten generations of selection for predicted weight of testes in swine: Direct response and correlated response in body weight, backfat, age at puberty, and ovulation rate, 1978

The effect of supplemental lysine and threonine on growth and development of yearling horses, 380
The effects of diets formulated on an ideal protein basis on growth performance, carcass characteristics, and thermal balance of finishing gilts housed in a hot, diurnal environment, 367
The effects of regrouping on behavioral and production parameters in finishing swine, 2804
The impact of ractopamine, energy intake, and dietary fat on finisher pig growth performance and carcass merit, 3152
The influence of maternal nutrition on muscle fiber number development in the porcine fetus and on subsequent postnatal growth, 911
Utilization of grass silage by cattle: Effect of supplementation with different sources and amounts of protein, 1403
Variation among inbred and linecross mice in response to fescue toxicosis, 2896
Growth Curve
Diminishing return in weight, nitrogen, and lysine gain of pigs fed six levels of lysine from three supplemental sources, 3177
Growth Factors
9A, 70A, 117A, 142A, 2B, 107B
A microplate-based bioassay system for measuring porcine serum mitogenic activity, 2378
The role of feed consumption and feed efficiency in copper-stimulated growth, 2385
Growth Hormone
70A, 77A, 84A, 122A, 123A, 159A, 160A, 162A, 163A, 183A, 287A, 288A, 310A, 316A, 341A, 360A, 1B, 15B, 56B, 109B, 132B
Rapid communication: *Hin*fI polymorphism at the bovine *PIT1* locus, 3267
Growth Hormone Secretagogue
252A
Growth Hormone-Releasing Factor
84A, 117A, 161A, 132B
Effect of daily replacement therapy with recombinant bovine somatotropin on somatotropin, insulin-like growth factor I, and onset of puberty in beef heifers immunized against growth hormone-releasing factor, 1786
Growth Hormone-Releasing Hormone
Long term effects of human growth hormone-releasing hormone and photoperiod on hormone release and puberty in dairy heifers, 2709
Growth Models
363A, 56B
Growth Performance
201A, 217A, 219A, 252A, 377A, 58B, 69B, 70B, 71B, 126B
Performance, clinical chemistry, and carcass responses of finishing lambs to formulated sometribove (methionyl bovine somatotropin), 2544
Growth Plate
259A
Growth Promoters
162A, 180A, 370A, 34B, 62B
Stimulation of growth by intravenous injection of copper in weanling pigs, 2395
Growth Rate
Corn supplementation of lambs grazing alfalfa, 783
Effect of aflatoxin in growing lambs fed ruminally degradable or escape protein sources, 1274
Effect of spray-dried porcine plasma protein on feed intake, growth rate, and efficiency of gain in mice, 2690
Evaluation of line and breed of cytoplasm effects on performance of purebred Brangus cattle, 2798
Genetic parameters for growth rate and backfat in Canadian Yorkshire, Landrace, Duroc, and Hampshire pigs, 1450
Selection response for growth in a Spanish Merino flock, 1433
Growth Traits
26B
Breed effects and retained heterosis for growth, carcass, and meat traits in advanced generations of composite populations of beef cattle, 833

HT-29 Cells
143A
HTST-Milk
38A
Haematobia irritans
Plasma characteristics of beef cattle classified as resistant or susceptible to horn flies, 886
Relationship of horn fly to face fly infestation in beef cattle, 2264
Hair Sheep
10B
Hair Whorls
207A
Halothane
248A, 286A
Halothane Genotypes
Effect of dantrolene treatment on muscle metabolism and meat quality of anesthetized pigs of different halothane genotypes, 2008
Handling
207A
Haplotype
Rapid communication: A *Pst*I restriction fragment length polymorphism at the sheep locus for myelin basic protein (*MBP*) probe, 3266
Harvest Year
57B, 58B
Hatching
Effects of blastocoelic expansion and plasminogen activator activity on hatching and zona pellucida solubility in bovine embryos in vitro, 2936
Hay
278A, 3B, 130B
Feed intake and apparent digestibility of hay-supplemented brassica diets for lambs, 1623
hCG Binding
231A
Health
89A, 243A, 295A, 309A, 378A
Evaluation of Brassicas in grazing systems for sheep: II. Blood composition and nutrient status, 1832
Health Claims
44A
Heart
Temporal response of rabbits to β-adrenergic agonist feeding: Tissue weight, calpains and calpastatin activities, and nucleic acid and protein concentrations, 68
Heart Rate
Transport of pigs different with respect to the Halothane gene: Stress assessment, 2552
Heat
37A, 154A, 155A, 186A, 323A, 380A, 43B
Heat Production
37B, 89B
Circadian fluctuation in heat production of young calves at different ambient temperatures in relation to posture, 598
Utilization of colostral energy by the newborn pig, 2082
Heat Resistance
Responses of bovine lymphocytes to heat shock as modified by breed and antioxidant status, 438
Heat Shock
79A, 107A, 374A
Heat Shock Protein 70
79A
Heat Stress
153A, 154A, 155A, 209A, 215A, 288A, 296A, 308A, 3B, 43B, 76B

Effects of dietary energy intake by gilts and heat stress from days 3 to 24 or 30 after mating on embryo survival and nitrogen and energy balance, 2369
Heat and social stress effects on pig immune measures, 2599
The effects of diets formulated on an ideal protein basis on growth performance, carcass characteristics, and thermal balance of finishing gilts housed in a hot, diurnal environment, 367
Heat Treatment
8A, 53A, 54A, 237A
Recovery of amino acids at the distal ileum for determining apparent and true ileal amino acid digestibilities in growing pigs fed various heat processed full-fat soybean products, 2029
Heat-Treated
309A
Heifers
79A, 81A, 87A, 123A, 163A, 178A, 189A, 196A, 197A, 280A, 281A, 285A, 289A, 290A, 360A, 363A, 365A, 1B, 9B, 15B, 16B, 29B, 41B, 45B, 47B, 78B, 79B, 100B, 101B, 114B
Active immunization against prostaglandin $F_{2\alpha}$: Effect of conjugate dose and booster interval on antibody titers and estrous behavior in postpubertal beef heifers, 1778
Effect of daily replacement therapy with recombinant bovine somatotropin on somatotropin, insulin-like growth factor I, and onset of puberty in beef heifers immunized against growth hormone-releasing factor, 1786
Effects of Synovex C® implants on growth rate, pelvic area, reproduction, and calving performance of replacement heifers, 292
Effects of recombinant bovine somatotropin and dietary energy intake on growth, secretion of luteinizing hormone, follicular development, and onset of puberty in beef heifers, 709
Gonadotropin-releasing hormone-induced secretion of luteinizing hormone in postpartum beef heifers maintained on two planes of nutrition before and after breeding, 998
Long term effects of human growth hormone-releasing hormone and photoperiod on hormone release and puberty in dairy heifers, 2709
Prepartum body condition and weight influences on reproductive performance of first-calf beef cows, 1119
Weight gain and reproductive performance of spring-born beef heifer calves intraruminally administered oxfendazole, 817
Hemagglutination
189A
Hematocrit
Influence of treadmill exercise on pituitary-adrenal secretions, other blood constituents, and meat quality of sheep, 1306
Hemicastration
132B
Hemoglobin
155A
Heparin
284A, 97B
Effects of basic fibroblast growth factor and heparin on follicle-stimulating hormone-induced steroidogenesis by bovine granulosa cells, 2696
Fertility of range beef bulls grouped according to presence or absence of heparin-binding proteins in sperm membranes and seminal fluid, 2441
Heparin Binding Protein
279A
Heparin-Sepharose
73A
Hepatic Lipase

Hoof Traits
202A

Hook Height
Herbage allowance × yearling heifer phenotype interactions for preweaning calf growth on humid pasture and semiarid rangeland, 1417
Hordeum vulgare
265A
Hormones
83A, 86A, 162A, 340A, 365A
Blood metabolite and regulatory hormone concentrations and response to metabolic challenges during the infusion of mimosine and 2,3-dilhydroxypyridine in Alpine goats, 415
Changes in concentrations of hormones, metabolites, and amino acids in plasma of adult horses relative to overnight feed deprivation followed by a pellet-hay meal fed at noon, 1530
Effects of postpartum nutrition and once-daily suckling on reproductive efficiency and preweaning calf performance in fall-calving Brahman (*Bos indicus*) cows, 984
Estrus, ovulation, luteinizing hormone, and suckling-induced hormones in mastectomized cows with and without unrestricted presence of the calf, 690
The effect of energy and protein intakes on boar libido, semen characteristics, and plasma hormone concentrations, 2051
The effect of protein intake on boar libido, semen characteristics, and plasma hormone concentrations, 2038
Horses
77A, 82A, 96A, 125B, 144A, 148A, 207A, 251A, 252A, 262A, 321A, 339A, 8B, 15B
Changes in concentrations of hormones, metabolites, and amino acids in plasma of adult horses relative to overnight feed deprivation followed by a pellet-hay meal fed at noon, 1530
Discrimination learning and concept formation in the Arabian horse, 3080
Growth hormone and prolactin concentrations in plasma of horses: Sex differences and the effects of acute exercise and administration of growth hormone-releasing hormone, 2911
The effect of supplemental lysine and threonine on growth and development of yearling horses, 380
The mechanical properties of equine third metacarpals as affected by age, 2617
Hot Fat Trimming
329A
Housing
154A, 297A
Influence of penning type and feeding level on sexual behavior and feet and leg soundness in boars, 2531
Human Chorionic Gonadotropin
Effect of administration of human chorionic gonadotropin or progesterone before maternal recognition of pregnancy on blastocyst development and pregnancy in sheep, 453
Human Hemoglobin
377A
Human Milk
36A
Humic Acid

IGF
69A, 72A, 119A, 211A, 253A, 253A, 77B, 79B
Administration of porcine somatotropin by a sustained-release implant: Effects on follicular growth, concentrations of steroids and insulin-like growth factor I, and insulin-like growth factor binding protein activity in follicular fluid of control, lean, and obese gilts, 2431
Concentrations of hormones and metabolites, estimates of metabolism, performance, and reproductive performance of sows actively immunized against growth hormone-releasing factor, 1570
Diet effects and ontogeny of alterations of circulating insulin-like growth factor binding proteins in newborn dairy calves, 421
Effects of serum and insulin-like growth factor I on protein degradation and protease gene expression in rat L8 myotubes, 2279
Endocrine responses and body composition changes during feed restriction and realimentation in young bulls, 2289
Porcine somatotropic regulation of thymic weight, thymosin β4, and insulin-like growth factors in lean and obese swine, 2404
Porcine somatotropin (pST) increases IGF-I mRNA abundance in liver and subcutaneous adipose tissue but not in skeletel muscle of growing pigs, 918
IGF Binding Proteins
71A, 73A, 163A, 177A, 211A, 227A, 78B
IGF-I
60A, 72B, 73A, 74A, 100A, 123A, 159A, 160A, 161A, 163A, 175A, 177A, 178A, 183A, 227A, 287A, 288A, 310A, 325A, 1B, 3B, 50B, 109B
Effect of daily replacement therapy with recombinant bovine somatotropin on somatotropin, insulin-like growth factor I, and onset of puberty in beef heifers immunized against growth hormone-releasing factor, 1786
In situ binding and immunocytochemistry of insulin-like growth factor I receptors in primary cultures of porcine adipose tissue stromal vascular cells treated with indomethacin, 969
IGF-II
160A, 288A
Ice Cream
50A
Ideal Protein
164A
Identification
312A, 346A
Screening of depigmenting compounds for the development of an alternate method of branding beef cattle, 1393
Wisconsin's "stale calf" issue and a study designed to resolve some of the animal welfare concerns, 2260

Ileal
264A
Improved soybean protein sources for early-weaned pigs: II. Effects on ileal amino acid digestibility, 631
Image Analysis
307A, 342A, 108B
Estimating marbling score in live cattle from ultrasound images using pattern recognition and neural network procedures, 1425
Evaluation of the optical fibre diameter analyser (OFDA) for measuring fiber diameter parameters of sheep and goats, 1675
Immobilized β-Galactosidase
37A
Immobilized *Trans*-Retinal Moiety
40A
Immune Response
131A, 132A, 274A, 282A, 43B
Effect of recombinant porcine somatotropin and monoclonal antibody directed to ovine somatotrophic hormone on nitrogen retention and immune parameters in pigs, 2820
Function of the hypothalamic-pituitary-adrenal axis and the sympathetic nervous system in models of acute stress in domestic farm animals, 1891
Immunological and hematological characterizations of the wasting pig syndrome, 976
The effect of dietary protein on performance and immune response in weanling pigs subjected to an inflammatory challenge, 2661
The effect of methionine and aflatoxin on immune function in weanling pigs, 658
Immune System
44A, 165A, 50B, 57B
Immunity
Effect of supplementing gilts' diets with different levels of vitamin E and different fats on the humoral and cellular immunity of gilts and their progeny, 665
Heat and social stress effects on pig immune measures, 2599
Influence of triiodothyronine injections on calf immune reponse to an infectious bovine rhinotracheitis virus challenge and nitrogen balance of lambs, 1263
Immunization
84A, 123A, 285A, 364A, 15B, 16B
Active immunization against prostaglandin $F_{2\alpha}$: Effect of conjugate dose and booster interval on antibody titers and estrous behavior in postpubertal beef heifers, 1778
Effect of daily replacement therapy with recombinant bovine somatotropin on somatotropin, insulin-like growth factor I, and onset of puberty in beef heifers immunized against growth hormone-releasing factor, 1786
The effects of immunization against luteinizing hormone-releasing hormone on performance, sexual development, and levels of boar taint-related compounds in intact male pigs, 14
Immunoblotting
Local and systemic immune responses to soybean protein ingestion in early-weaned pigs, 2090

Effect of dantrolene treatment on muscle metabolism and meat quality of anesthetized pigs of different halothane genotypes, 2008
Influence of production and postmortem technologies on composition and palatability of USDA select grade beef, 1224
Influence of treadmill exercise on pituitary-adrenal secretions, other blood constituents, and meat quality of sheep, 1306
The efficacy of adding a minimum adjusted fat thickness requirement to the USDA beef quality grading standards for select grade beef, 1502
Meat Yield
34B, 52B
Comparison of live animal and carcass equations predicting percentage of cutability, retail product weight, and trimmable fat in beef cattle, 1107
Meat and Bone Meal
94A, 238A, 93B
Mechanical Strengths
24A
Media
29A
Medium Chain Triglycerides
Energy value of medium-chain triglycerides and their efficacy in improving survival of neonatal pigs, 133
Megalac®
306A
Meishan Pigs
78A, 74B
Energy and protein metabolism of the Chinese pig, 2068
Investigations into the control of litter size in swine: III. A reciprocal embryo transfer study of early conceptus development, 725
Morphological and functional characteristics of preovulatory follicles in Large White and Meishan gilts, 2099
Melatonin
115B, 117B
Effects of photoperiod and slow-release preparations of bromocryptine and melatonin on reproductive activity and prolactin secretion in female goats, 955
Influence of simulated photoperiod alteration and induced estrus on reproductive performance of spring-born Columbia and Targhee ewe lambs, 29
Melengestrol
81A, 229A, 340A, 41B, 73B, 98B
Acute progesterone administration regresses persistent dominant follicles and improves fertility of cattle in which estrus was synchronized with melengestrol acetate, 2955
Effect of melengestrol acetate (MGA) or progesterone-releasing intravaginal device (PRID) on follicular development, concentrations of estradiol-17β and progesterone, and luteinizing hormone release during an artificially lengthened bovine estrous cycle, 1282
Melengestrol acetate and norgestomet for the induction of synchronized estrus in seasonally anovular ewes, 3049
Meltability
28A
Mentorship
358A
Merino Sheep
367A
Mesentery
Comparison of insulin infusion sites on metabolite net flux and insulin kinetics in growing euglycemic beef steers, 990
Effect of intraruminal propionic acid infusion on metabolism of mesenteric- and portal-drained viscera in growing steers fed a forage diet: I. Volatile fatty acids, glucose, and lactate, 1325
Meta-Analysis
380A
Metabolic Disorder
344A
Metabolic Profile
204A, 10B
Metabolic Regulation
130A, 226A

Metabolic Response
290A
Metabolic Status
347A
Effect of delayed breeding on the endocrinology and fecundity of sows, 283
Metabolism
134A, 190A, 195A, 217A, 226A, 302A, 303A, 383A, 384A, 385A, 120B
Comparison of insulin infusion sites on metabolite net flux and insulin kinetics in growing euglycemic beef steers, 990
Effect of intraruminal propionic acid infusion on metabolism of mesenteric- and portal-drained viscera in growing steers fed a forage diet: I. Volatile fatty acids, glucose, and lactate, 1325
Growth characteristics of rats receiving ractopamine hydrochloride and the metabolic disposition of ractopamine hydrochloride after oral or intraperitoneal administration, 404
Influence of flake thickness on the feeding value of steam-rolled wheat for feedlot cattle, 21
Interaction of forage level and monensin in diets for feedlot cattle on growth performance and digestive function, 2209
Lipoprotein lipase and metabolic activities in incubated bovine adipose tissue explants: Effects of insulin, dexamethasone, and fetal bovine serum, 184
Metabolism of tritiated D-α-tocopherol and D-α-tocopheryl succinate in intraruminally dosed sheep, 2124
Metabolite flux across postal-drained viscera, liver, and hindquarters of hyperinsulinemic, euglycemic beef steers, 2919
Neomycin metabolism in calves, 683
Nutritional manipulation of growth and metabolic and reproductive status in prepubertal gilts, 2415
Metabolite Flux
192A
Metabolites
103A, 222A, 2B
Blood metabolite and regulatory hormone concentrations and response to metabolic challenges during the infusion of mimosine and 2,3-dilhydroxypyridine in Alpine goats, 415
Changes in concentrations of hormones, metabolites, and amino acids in plasma of adult horses relative to overnight feed deprivation followed by a pellet-hay meal fed at noon, 1530
Effect of dantrolene treatment on muscle metabolism and meat quality of anesthetized pigs of different halothane genotypes, 2008
Influence of a propionate load in fed or unfed lambs on blood metabolites and hormone patterns, 2141
Metabolizable Energy
98A, 265A, 65B
Energy value of medium-chain triglycerides and their efficacy in improving survival of neonatal pigs, 133
The effects of high-forage diets with added palm oil on performance, plasma lipids, and carcass characteristics of ram lambs with initially high or low plasma cholesterol, 330
Metabolizable Protein
353A, 91B, 92B, 93B
Metalloproteins
Production of tissue inhibitor of metalloproteinases-1 by porcine follicular and luteal cells, 1004
Methane
189A, 127B
Methionine
65A, 77A, 91A, 92A, 93A, 192A, 216A, 243A, 292A, 356A, 388A, 71B, 93B, 114B, 124B, 126B
The effect of methionine and aflatoxin on immune function in weanling pigs, 658
Methodology
51B
Effects of cooking and shearing methodology on variation in Warner-Bratzler shear force values in beef, 2325
Multidisciplinary approach to evaluating welfare of veal calves in commercial facilities, 2518
Methylation
102A
Methylprednisolone
310A
Metmyoglobin
372A
Metyrapone
322A
Mexico
108B
Mice
120A, 214A, 362A, 37B, 38B, 53B, 1C, 9C
Effect of spray-dried porcine plasma protein on feed intake, growth rate, and efficiency of gain in mice, 2690
Growth patterns and body composition of transgenic mice expressing mutated bovine somatotropin genes, 2812
Serum cholesterol concentration of mice selected for litter size and its relationship to litter size and testis mass, 2943
Uterine capacity and ovulation rate in mice selected 21 generations on alternative criteria to increase litter size, 577
Variation among inbred and linecross mice in response to fescue toxicosis, 2896
Microbeads
254A
Microbial Efficiency
Influence of crambe meal as a protein source on intake, site of digestion, ruminal fermentation, and microbial efficiency in beef steers fed grass hay, 3238
Microbial Fermentation
240A, 246A, 261A, 277A, 299A, 387A
Microbial Flora
48A
Ruminal microbiology, biotechnology and ruminant nutrition: Progress and problems, 2992
Microbial Markers
88B
Microbial Protein
90A, 222A, 354A, 386A, 92B, 119B
Concentrations of folates in ruminal content of steers: Responses to a dietary supplement of folic acid in relation with the nature of the diet, 1023
Microbial Succession
301A
Microbiology
100B
Microencapsulation
27A, 50A, 172A
Microfluidize
12A, 24A, 33A
Microgard
29A
Microinjection
174A, 6B
Effect of culture conditions, donor age, and injection site on in vitro development of DNA microinjected porcine zygotes, 1299
Microminerals
96A
Microorganisms
384A
Laboratory and field evaluation of commercial feed preservatives in the diet of nursery pigs, 572
Microstructure
22A, 32A
Migration
68A, 255A, 310A
Milk
2A, 7A, 11A, 13A, 14A, 15A, 25A, 30A, 33A, 35A, 38A, 39A, 45A, 65A, 75A, 76A, 84A, 96A, 97A, 112A, 222A, 233A, 243A, 245A, 266A, 304A, 361A, 383A, 121B
Concentrations of inorganic elements in milk of sows selected for high and low serum cholesterol, 1399
Dietary hydrated sodium calcium aluminosilicate reduction of aflatoxin M1 residue in dairy goat milk and effects on milk production and components, 677
Pre- and postpartum supplemental DL-α-tocopheryl acetate effects on placental and mammary vitamin E transfer in sheep, 1636
Milk Composition
23A, 257A, 344A, 345A, 347A, 349A, 388A, 389A
Effect of dietary calcium concentrations during gestation and lactation in the sow on milk composition and litter growth, 1315
Milk Fat
33A, 35A, 43A, 53A, 54A, 114A, 225A, 344A, 349A, 383A
Colostral milk fat percentage and pig performance are enhanced

by feeding the leucine metabolite β-hydroxy-β-methyl butyrate to sows, 2331
Milk Fever
133A, 8B
Milk Peptide
53A
Milk Production
65A, 85A, 87A, 88A, 128A, 138A, 183A, 189A, 198A, 212A, 224A, 238A, 249A, 307A, 308A, 338A, 341A, 345A, 378A, 388A
Relationships among ewe milk production and ewe and lamb forage intake in Targhee ewes nursing single or twin lambs, 811
Milk Proteins
24A, 32A, 53A, 54A, 65A, 91A, 92A, 93A, 204A, 225A, 242A, 243A, 245A, 248A, 305A, 349A, 124B
Milk Quality
21A, 88A, 254A
Milk Replacers
215A, 296A, 298A, 359A, 9B, 60B, 65B
Milk Resources
21A
Milk Safety
45A, 46A
Milk Selection
316A
Milk Yield
88A, 117A, 128A, 152A, 155A, 182A, 185A, 188A, 204A, 205A, 234A, 238A, 240A, 318A, 344A, 368A, 383A, 389A, 13B
Concentrations of hormones and metabolites, estimates of metabolism, performance, and reproductive performance of sows actively immunized against growth hormone-releasing factor, 1570
Genetic correlations in the feed conversion complex of primiparous cows at a recommended and a reduced plane of nutrition, 1441
Genetic parameters for milk production of Australian beef cows and weaning weight of their calves, 1155
Milkers
158A
Milkfat Oxidation
27A
Milking
313A, 343A
Milking Frequency
5A, 21A, 88A, 176A, 226A
Milking Machine Liner
313A
Milking Parlors
129A
Millet
335A
Mimosine
103A
Blood metabolite and regulatory hormone concentrations and response to metabolic challenges during the infusion of mimosine and 2,3-dilhydroxypyridine in Alpine goats, 415
Mineral Metabolism
Effects of feeding lasalocid and monensin upon digestive tract flow and partial absorption of minerals in sheep, 1029
Minerals
8A, 51A, 97A, 103A, 130A, 156A, 251A, 262A, 340A, 11B, 30B, 66B, 81B, 87B, 112B
Concentrations of inorganic elements in milk of sows selected for high and low serum cholesterol, 1399
Dietary electrolyte balance effects on performance and metabolic characteristics in growing steers, 1842
Minimal Standards
108A
Minks
Selection for litter size, body weight, and pelt quality in mink (*Mustela vison*): Correlated responses, 1126
Missing Observations
40B, 41B
Mitochondrial DNA
317A
Rapid communication: A unique *Sac*II restriction fragment length polymorphism in mitochondrial DNA of sheep and goats, 796
Mitogen Activated Protein Kinase
118A
Mitosis
176A
Mixed Grazing
Influence of grazing cattle and sheep together and separately on animal performance and forage quality, 1013
Mixer Molder
15A
Mixing
46B, 59B
Model Selection
57A
Modeling
4A, 129A, 135A, 363A
Models
189A, 241A, 277A, 294A
Predicting net energy and protein requirements for growth of implanted and nonimplanted heifers and steers and nonimplanted bulls varying in body size, 1806
Modified Atmosphere
6A, 276A
Mohair
180A, 342A, 343A, 355A, 102B
Evaluation of the optical fibre diameter analyser (OFDA) for measuring fiber diameter parameters of sheep and goats, 1675
The nutritional control of the growth and properties of mohair and wool fibers: A comparative review, 1899
Moisture
41A, 213A
Molasses
334A, 363A, 101B
Digestibility, nitrogen utilization, and voluntary intake of ensiled crab waste-wheat straw mixtures fed to sheep, 565
Digestion characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3213
Growth and carcass characteristics of beef steers fed silage and different levels of energy with or without protein supplementation, 3221
Molds
Laboratory and field evaluation of commercial feed preservatives in the diet of nursery pigs, 572
Molecular
140A
Molecular Markers
102A, 314A
Molybdenum
1B
Effect of dietary copper, iron, and molybdenum on growth and copper status of beef cows and calves, 2722
Monensin
134A, 291A, 355A, 383A, 384A, 385A
Binding of radiolabeled monensin and lasalocid to ruminal microorganisms and feed, 1630
Effects of feeding lasalocid and monensin upon digestive tract flow and partial absorption of minerals in sheep, 1029
Effects of lasalocid and monensin plus tylosin on serum metabolic hormones and clinical chemistry profiles of beef steers fed a 90% concentrate diet, 1049
Interaction of forage level and monensin in diets for feedlot cattle on growth performance and digestive function, 2209
Monoclonal Antibodies
121A, 159A, 161A
Effect of recombinant porcine somatotropin and monoclonal antibody directed to ovine somatotrophic hormone on nitrogen retention and immune parameters in pigs, 2820
Monocyte
95A
Monoglyceride
8A
Mononuclear Cells
107A
Morbidity
109A, 143A
Morphology
278A
Effects of dietary fiber on intestinal growth, cell proliferation, and morphology in growing pigs, 2270

Mortality
143A
An ellipsid farrowing crate: Its ergonomical design and effects on pig productivity, 2610
Mother
268A
Mothering Ability
An experimental comparison of equivalent terminal and rotational crossbreeding systems in swine: Sow and litter performance, 584
Motility
280A
Mountain Goats
Rapid communication: A unique *Sac*II restriction fragment length polymorphism in mitochondrial DNA of sheep and goats, 796
mRNA Expression
74A
Multimedia
141A
Multiparous
13B
Multiple Genes
Expression pattern and partial sequence analysis of a fetal bovine myosin heavy-chain gene, 903
Multiple Traits
40B, 41B
Genetic parameters for growth rate and backfat in Canadian Yorkshire, Landrace, Duroc, and Hampshire pigs, 1450
Musca autumnalis
Relationship of horn fly to face fly infestation in beef cattle, 2264
Muscle Fibers
162A
Effect of somatotropin on myosin expression in pigs, 1204
Influence of dietary protein and recombinant porcine somatotropin administration in young pigs: III. Muscle fiber morphology and shear-force, 615
The effect of cimaterol on muscle fiber characteristics, capillary supply, and metabolic potentials of longissimus and semitendinosus muscles from young Friesian bulls, 2298
Muscle Hypertrophy
329A
Muscle Metabolism
50B
Muscle Quality
48B
Muscle Relaxants
Effect of dantrolene treatment on muscle metabolism and meat quality of anesthetized pigs of different halothane genotypes, 2008
Muscle Tissue
162A
Effects of exogenous protease effectors on beef tenderness development and myofibrillar degradation and solubility, 1209
Incidence of injection-site blemishes in beef top sirloin butts, 824
Muscles
59A, 60A, 61A, 72A, 75A, 163A, 210A, 211A, 248A, 36B, 51B, 68B, 96B, 107B
Bovine skeletal muscle calpastatin: Cloning, sequence analysis, and steady-state mRNA expression, 606
Effect of dietary canola on fatty acid composition of bovine adipose tissue, muscle, kidney, and liver, 2735
Effects of serum and insulin-like growth factor I on protein degradation and protease gene expression in rat L8 myotubes, 2279
Phosphorus-31 nuclear magnetic resonance study of energy metabolism in intact slow- and fast-twitch muscles of rats, 103
Prerigor and postrigor changes in tenderness of ovine longissimus muscle, 1232
Rapid communication: *Msp*I restriction fragment length polymorphism at the swine *MYF6* locus, 799
Rapid communication: Length polymorphism in the swine α-*actin* locus, 1910
Temporal response of rabbits to β-adrenergic agonist feeding: Tissue weight, calpains and calpastatin activities, and nucleic acid and protein concentrations, 68
Mutagenesis
53A, 315A
Growth patterns and body composition of transgenic mice expressing mutated bovine somatotropin genes, 2812
Mutton
108B
Mycoplasmal Pneumonia
42B
Myelin Protein
Rapid communication: A *Pst*I restriction fragment length polymorphism at the sheep locus for myelin basic protein (*MBP*) probe, 3266
Myeloperoxidase
255A
Myoblasts
71A, 72A
Myoepithelia
120A
Myofibrils
108B
Phosphorus-31 nuclear magnetic resonance study of energy metabolism in intact slow- and fast-twitch muscles of rats, 103
The influence of maternal nutrition on muscle fiber number development in the porcine fetus and on subsequent postnatal growth, 911
Myogenesis
70A, 160A
Myogenic Clone
Transforming growth factor beta-1 facilitates establishing clonal populations of ovine muscle satellite cells, 2001
Myogenin
72A, 248A, 35B
Myosin
71A
Effect of somatotropin on myosin expression in pigs, 1204
Expression pattern and partial sequence analysis of a fetal bovine myosin heavy-chain gene, 903
Myotube
74A, 248A

A genetic study of estrous symptoms at puberty and their relationship to growth and leanness in gilts, 1964
A microplate-based bioassay system for measuring porcine serum mitogenic activity, 2378
Administration of testosterone during the follicular phase increased the number of corpora lutea in gilts, 2930
An ellipsid farrowing crate: Its ergonomical design and effects on pig productivity, 2610
An experimental comparison of equivalent terminal and rotational crossbreeding systems in swine: Sow and litter performance, 584
An experimental comparison of equivalent terminal and rotational crossbreeding systems in swine: Pig performance, 2578
Apparent digestibility and retention of nutrients bound to phytate complexes as influenced by microbial phytase and feeding regimen in pigs, 126
Availability of amino acids for 10- to 20-kilogram pigs: Lysine and threonine in soybean meal, 2061
Bioavailability of zinc from inorganic and organic sources for pigs fed corn-soybean meal diets, 2681
Biological availability of phosphorus in defluorinated phosphates with different phosphorus solubilities in neutral ammonium citrate for chicks and pigs, 2653
Calcium level affects the efficacy of supplemental microbial phytase in corn-soybean meal diets of weanling pigs, 139
Changes in peripheral concentrations of 13,14-dihydro-15-keto-prostaglandin $F_{2\alpha}$ induced by progesterone in swine, 459
Characterization of the nutritional interactions between organic acids and inorganic bases in the pig and chick, 1257
Cloning of a pig Glucose Transporter 4 cDNA fragment: Use in developing a sensitive ribonuclease protection assay for quantifying low-abundance Glucose Transporter 4 mRNA in porcine adipose tissue, 1196
Colostral milk fat percentage and pig performance are enhanced by feeding the leucine metabolite β-hydroxy-β-methyl butyrate to sows, 2331

Comparison of litter adjustment factors in Yorkshire and Landrace data, 2538
Composition, preservation, and use of sea clam viscera as a protein supplement for growing pigs, 546
Determination of apparent ileal amino acid digestibility in pigs: Effect of dietary amino acid level, 2851
Diet preference and meal patterns of weanling pigs offered diets containing either spray-dried porcine plasma or dried skim milk, 1548
Dietary nitrogen and lipid utilization by growing pigs fed structured triacylglycerides synthesized from medium-chain triacylglycerides and menhaden oil, 938
Digestible lysine requirement of gilts with high genetic potential for lean gain, in relation to the level of energy intake, 1744
Digestible threonine requirements of starter and finisher pigs, 144
Diminishing return in weight, nitrogen, and lysine gain of pigs fed six levels of lysine from three supplemental sources, 3177
Effect of age on the differentiation of porcine adipose stromal-vascular cells in culture, 2828
Effect of body weight on net energy value of feeds for growing pigs, 648
Effect of creep feeding on selected microflora and short-chain fatty acids in the ileum of weanling pigs, 3163
Effect of culture conditions, donor age, and injection site on in vitro development of DNA microinjected porcine zygotes, 1299
Effect of dantrolene treatment on muscle metabolism and meat quality of anesthetized pigs of different halothane genotypes, 2008
Effect of estrone treatment from day 30 to 45 of pregnancy on endometrial protein secretion and uterine capacity, 3188
Effect of fat source in receiving diets and reduced nocturnal temperatures on commingled feeder pig performance, 1522
Effect of lecithin on the apparent ileal and overall digestibility of crude fat and fatty acids in pigs, 2022
Effect of level of dietary neutral detergent fiber on ileal apparent digestibility and ileal nitrogen losses in pigs, 2362
Effect of porcine somatotropin (pST) treatment and withdrawal on performance and adipose tissue cellularity in finishing swine, 1702
Effect of recombinant porcine somatotropin and monoclonal antibody directed to ovine somatotrophic hormone on nitrogen retention and immune parameters in pigs, 2820
Effect of somatotropin on myosin expression in pigs, 1204
Effect of supplementing gilts' diets with different levels of vitamin E and different fats on the humoral and cellular immunity of gilts and their progeny, 665
Effectiveness of zinc acetate injection in alleviating postweaning lag in pigs, 3037
Effects of dietary fiber on intestinal growth, cell proliferation, and morphology in growing pigs, 2270
Effects of increased dietary energy after mating on developmental uniformity and survival of porcine conceptuses, 1320
Effects of the interrelationship between genotype, sex, and dietary lysine on growth performance and carcass composition in finishing pigs fed to either 104 or 127 kilograms, 946
Efficacy of a copper-lysine complex as a growth promotant for weanling pigs, 2880
Efficacy of magnesium-L-ascorbyl-2-phosphate as a vitamin C source for weanling and growing-finishing swine, 2354
Energy and protein metabolism of the Chinese pig, 2068
Energy value of medium-chain triglycerides and their efficacy in improving survival of neonatal pigs, 133
Evaluation of optimal age at first conception in gilts from data collected in commercial swine herds, 1387
Factors affecting excretory behavior of pigs, 1455
Flow cytometric analysis of porcine preadipocyte replication, 1712
Fostering in swine as affected by age of offspring, 1697
Gastric protein breakdown and pancreatic enzyme activities in response to two different dietary protein sources in newly weaned pigs, 2843
Genetic parameters for growth rate and backfat in Canadian Yorkshire, Landrace, Duroc, and Hampshire pigs, 1450
Genetic parameters for litter size of different parities in Duroc, Landrace, and Large White Sows, 2237
Heat and social stress effects on pig immune measures, 2599
Immunological and hematological characterizations of the wasting pig syndrome, 976
Improved soybean protein sources for early-weaned pigs: I. Effects on performance and total tract amino acid digestibility, 622
Improved soybean protein sources for early-weaned pigs: II. Effects on ileal amino acid digestibility, 631
In situ binding and immunocytochemistry of insulin-like growth factor I receptors in primary cultures of porcine adipose tissue stromal vascular cells treated with indomethacin, 969
Increased cortisol response to exogenous adrenocorticotropic hormone in chronically stressed pigs: Influence of housing conditions, 1771
Influence of dietary background on the response of pigs to the β-adrenergic agonist BRL 47672, 1516
Influence of dietary lysine on growth and carcass composition of high-lean-growth gilts fed from 34 to 72 kilograms, 1761
Influence of dietary protein and recombinant porcine somatotropin administration in young pigs: III. Muscle fiber morphology and shear-force, 615
Investigations into the control of litter size in swine: III. A reciprocal embryo transfer study of early conceptus development, 725
Laboratory and field evaluation of commercial feed preservatives in the diet of nursery pigs, 572
Limitations of ractopamine to affect adipose tissue metabolism in swine, 62
Lipid composition of carcass tissue from transgenic pigs expressing a bovine growth hormone gene, 1242
Lipopolysaccharide-induced sickness behavior in pigs is inhibited by pretreatment with indomethacin, 309
Low-protein, crystalline amino acid-supplemented, sorghum-soybean meal diets for the 10- to 20-kilogram pig, 638
Morphological and functional characteristics of preovulatory follicles in Large White and Meishan gilts, 2099
Nitrogen utilization and lean growth performance of 20- to 50-kilogram pigs fed diets balanced for lysine:energy ratio, 2887
Optimal contemporary group structure to maximize genetic progress through genetic evaluation of swine, 2254
Optimum particle size of corn and hard and soft sorghum for nursery pigs, 2227
Porcine somatotropic regulation of thymic weight, thymosin β4, and insulin-like growth factors in lean and obese swine, 2404
Prediction of net energy value of feeds for growing pigs, 344
Preweaning growth of Yorkshire, Hampshire, and Landrace pigs, 56
Rapid communication: A *Taq*I restriction fragment length polymorphism at the porcine *cholesterol 7α-hydroxylase (CYP7)* locus, 797
Rapid communication: An SstI restriction fragment length polymorphism at the swine OCT11 locus, 2201
Rapid communication: *Msp*I restriction fragment length polymorphism at the swine *MYF6* locus, 799
Rapid communication: Nucleotide sequence of luteinizing hormone-releasing hormone (LHRH) receptor cDNA in the pig pituitary, 1911
Rapid communication: Restriction fragment length polymorphisms at the porcine *transporter associated with antigen processing 1 (TAP1)* locus, 255
Recovery of amino acids at the distal ileum for determining apparent and true ileal amino acid digestibilities in growing pigs fed various heat processed full-fat soybean products, 2029
Self-selection of diets and lysine requirements of growing-finishing swine, 554
Serum growth hormone-binding protein (GHBP) in domestic animals as measured by ELISA, 1719
Stimulation of growth by intravenous injection of copper in weanling pigs, 2395
Ten generations of selection for predicted weight of testes in swine: Direct response and correlated response in body weight, backfat, age at puberty, and ovulation rate, 1978
The effect of dietary fat content on amino acid digestibility in young pigs, 1737
The effect of dietary protein on performance and immune response in weanling pigs subjected to an inflammatory challenge, 2661
The effect of methionine and aflatoxin on immune function in weanling pigs, 658
The effect of ractopamine on β-adrenoceptor density and affinity in porcine adipose and skeletal muscle tissue, 75
The effect of spray-dried porcine plasma on growth performance in the early-weaned pig, 2075

The effect of various diet nutrient densities and electrolyte balances on sow and litter performance during two seasons of the year, 1101
The effects of diets formulated on an ideal protein basis on growth performance, carcass characteristics, and thermal balance of finishing gilts housed in a hot, diurnal environment, 367
The effects of immunization against luteinizing hormone-releasing hormone on performance, sexual development, and levels of boar taint-related compounds in intact male pigs, 14
The effects of regrouping on behavioral and production parameters in finishing swine, 2804
The effects of spray-dried blood meal on growth performance of the early-weaned pig, 2860
The impact of ractopamine, energy intake, and dietary fat on finisher pig growth performance and carcass merit, 3152
The influence of maternal nutrition on muscle fiber number development in the porcine fetus and on subsequent postnatal growth, 911
The influence of the mineral level in drinking water and the thermal environment on the performance and intestinal fluid flux of newly-weaned pigs, 300
The role of feed consumption and feed efficiency in copper-stimulated growth, 2385
Transport of pigs different with respect to the Halothane gene: Stress assessment, 2552
Utilization of colostral energy by the newborn pig, 2082

Life cycle evaluation of five biological types of beef cattle in a cow-calf range production system: I. Model development, 2585
Life cycle evaluation of five biological types of beef cattle in a cow-calf range production system: II. Biological and economic performance, 2591
Progeny
390A
Prediction error variances for interbreed genetic evaluations, 1971

Progeny Testing
Effects of data structure on variance of prediction error and accuracy of genetic evaluation, 2568
Optimal contemporary group structure to maximize genetic progress through genetic evaluation of swine, 2254
Progesterone
80A, 100A, 101A, 172A, 173A, 229A, 230A, 280A, 284A, 286A, 289A, 339A, 342A, 373A, 390A, 72B, 100B
Acute progesterone administration regresses persistent dominant follicles and improves fertility of cattle in which estrus was synchronized with melengestrol acetate, 2955
Cell types and hormonal mechanisms associated with mid-cycle corpus luteum function, 1873
Changes in peripheral concentrations of 13,14-dihydro-15-keto-prostaglandin $F_{2\alpha}$ induced by progesterone in swine, 459
Effect of melengestrol acetate (MGA) or progesterone-releasing intravaginal device (PRID) on follicular development, concentrations of estradiol-17β and progesterone, and luteinizing hormone release during an artificially lengthened bovine estrous cycle, 1282
Effects of basic fibroblast growth factor and heparin on follicle-stimulating hormone-induced steroidogenesis by bovine granulosa cells, 2696
Effects of photoperiod and slow-release preparations of bromocryptine and melatonin on reproductive activity and prolactin secretion in female goats, 955
Interactions between large and small bovine luteal cells in a sequential perifusion co-culture system, 963
Mechanisms associated with corpus luteum development, 1857
Progestins
173A, 229A
Prolactin
118A, 119A, 121A, 144A, 208A, 257A, 360A, 2B, 15B, 16B, 31B, 76B, 115B
Effects of bromocriptine treatment on the expression of sexual behavior in male sheep (*Ovis aries*), 591
Effects of photoperiod and slow-release preparations of bromocryptine and melatonin on reproductive activity and prolactin secretion in female goats, 955
Exposure to constant photoperiod alters serum prolactin concentrations and behavioral response to estradiol in the ovariectomized goat, 3088
Growth hormone and prolactin concentrations in plasma of horses: Sex differences and the effects of acute exercise and administration of growth hormone-releasing hormone, 2911
Long term effects of human growth hormone-releasing hormone and photoperiod on hormone release and puberty in dairy heifers, 2709
Plasma concentrations of prolactin, glucose, insulin, urea nitrogen, and total amino acids in stallions after ingestion of feed or gastric administration of feed components, 2345
Rapid communication: Diallelic single-stranded conformational polymorphism detected in the bovine *prolactin* gene, 256
Proliferation
72A, 100A, 107A, 120A, 123A, 334A
Proline Iminopeptidase
3A
Propidium Iodide
Flow cytometric analysis of porcine preadipocyte replication, 1712
Propionate
184A, 127B
Propionate Load
Influence of a propionate load in fed or unfed lambs on blood metabolites and hormone patterns, 2141
Propionibacteria
66A, 188A, 123B, 127B
Propionic Acid
384A
Effect of intraruminal propionic acid infusion on metabolism of mesenteric- and portal-drained viscera in growing steers fed a forage diet: I. Volatile fatty acids, glucose, and lactate, 1325
Propylthiouracil
83A, 43C
Prostaglandin F Immunization
123A, 281A
Prostaglandins
81A, 173A, 230A, 260A, 281A, 282A, 286A, 292A, 339A, 352A, 379A, 380A, 17B, 18B, 50B, 72B, 98B, 123B, 124B
Active immunization against prostaglandin $F_{2\alpha}$: Effect of conjugate dose and booster interval on antibody titers and estrous behavior in postpubertal beef heifers, 1778
Changes in peripheral concentrations of 13,14-dihydro-15-keto-prostaglandin $F_{2\alpha}$ induced by progesterone in swine, 459
Lipopolysaccharide-induced sickness behavior in pigs is inhibited by pretreatment with indomethacin, 309
Luteolytic effect of postaglandin $F_{2\alpha}$ and two metabolites in ewes, 2718

Composition, preservation, and use of sea clam viscera as a protein supplement for growing pigs, 546
Effects of a supply of raw or extruded white lupin seeds on protein digestion and amino acid absorption in dairy cows, 492
Effects of energy density and protein source on diet digestibility and performance of calves after arrival at the feedlot, 1616
Energy and protein metabolism of the Chinese pig, 2068
Gastric protein breakdown and pancreatic enzyme activities in response to two different dietary protein sources in newly weaned pigs, 2843
Improved soybean protein sources for early-weaned pigs: I. Effects on performance and total tract amino acid digestibility, 622
Influence of non-fibrous carbohydrate and degradable intake protein on fermentation by ruminal microorganisms in continuous culture, 2464
Production of tissue inhibitor of metalloproteinases-1 by porcine follicular and luteal cells, 1004
The effect of dietary protein on performance and immune response in weanling pigs subjected to an inflammatory challenge, 2661
The effect of energy and protein intakes on boar libido, semen characteristics, and plasma hormone concentrations, 2051
The effect of protein intake on boar libido, semen characteristics, and plasma hormone concentrations, 2038
Wet corn distillers byproducts compared with dried corn distillers grains with solubles as a source of protein and energy for ruminants, 3246
Protein Concentrates
Evaluation of acid detergent insoluble nitrogen as an indicator of protein quality in nonforage proteins, 1043
In vitro determination of ruminal protein degradability using [^{15}N]ammonia to correct for microbial nitrogen uptake, 1344
Protein Degradability
135A, 238A, 385A, 388A
Protein Degradation
171A, 247A
Alfalfa and escape protein supplements for grazed corn residues, 3043
Effects of exogenous protease effectors on beef tenderness development and myofibrillar degradation and solubility, 1209
Effects of serum and insulin-like growth factor I on protein degradation and protease gene expression in rat L8 myotubes, 2279
In vitro determination of ruminal protein degradability using [^{15}N]ammonia to correct for microbial nitrogen uptake, 1344
Protein Digestibility
264A
Growth efficiency and digestibility of heated protein fed to growing ruminants, 774
Protein Efficiency Ratio
37A
Protein Feeds
128B
Protein Fractions

Protein Genetic Engineering
53A, 315A
Protein Intake
99A, 212A
Protein Kinase C
283A
Protein Level
352A, 59B
Effects of diet acidity and protein level or source of calcium on the performance, gastrointestinal content measurements, bone measurements, and carcass composition of gilt and barrow weanling pigs, 2670
Protein Metabolism
56A
Protein Quality
90A, 98A, 219A
In vitro determination of ruminal protein degradability using [^{15}N]ammonia to correct for microbial nitrogen uptake, 1344
Protein Requirements
67B
Predicting net energy and protein requirements for growth of implanted and nonimplanted heifers and steers and nonimplanted bulls varying in body size, 1806
Protein Retention
Digestible lysine requirement of gilts with high genetic potential for lean gain, in relation to the level of energy intake, 1744
Protein Solubility
387A
Protein Sources
237A, 355A, 11B
Effect of aflatoxin in growing lambs fed ruminally degradable or escape protein sources, 1274
Protein Supplements
326A, 353A, 101B, 111B
Effects of substituting feather meal for soybean meal on ruminal fiber fermentation and lamb and wool growth, 509
Protein Synthesis
221A, 258A, 53B
Protein Turnover
72A
Skeletal muscle growth and protein turnover in neonatal boars and barrows, 315
Protein Yield
88A, 204A
Proteinase Inhibitors
Production of tissue inhibitor of metalloproteinases-1 by porcine follicular and luteal cells, 1004
Proteinases
Effects of exogenous protease effectors on beef tenderness development and myofibrillar degradation and solubility, 1209
Effects of serum and insulin-like growth factor I on protein degradation and protease gene expression in rat L8 myotubes, 2279
Production of tissue inhibitor of metalloproteinases-1 by porcine follicular and luteal cells, 1004
Proteinate

Calcium level affects the efficacy of supplemental microbial phytase in corn-soybean meal diets of weanling pigs, 139
Vitamin E
94A, 170A, 187A, 271A, 272A, 332A, 340A, 371A, 390A, 11B, 51B, 64B, 109B
Assessment of vitamin E nutritional status in sheep, 3207
Effect of supplementing gilts' diets with different levels of vitamin E and different fats on the humoral and cellular immunity of gilts and their progeny, 665
Effects of dietary vitamin E on sow reproductive performance over a five-parity period, 2870
Metabolism of tritiated D-α-tocopherol and D-α-tocopheryl succinate in intraruminally dosed sheep, 2124
Pre- and postpartum supplemental DL-α-tocopheryl acetate effects on placental and mammary vitamin E transfer in sheep, 1636
Serum and tissue tocopherol in sheep after intramuscular injection and(or) dietary vitamin E supplementation, 739
Vitamins
25A, 130A, 375A
Effect of free amino acids and vitamins on cleavage and developmental rate of bovine zygotes in vitro, 434
Vitrification
82A
Volatile Ester
50A
Volatile Fatty Acids
360A, 131B
Effect of creep feeding on selected microflora and short-chain fatty acids in the ileum of weanling pigs, 3163
Effects of mesenteric vein L-alanine infusion on liver metabolism of organic acids by beef heifers fed diets differing in forage: concentrate ratio, 3196
Voluntary Intake
3B
Changes of nitrogen balance with age in calves weaned at 5 or 6 weeks of age, 732

W

WBC
155A
WET Lab Analysis
64A
Waste Cooking Oil
303A
Waste Milk
89A
Waste Pulper
137A
Water
134A, 23B
Water Quality
200A, 321A
The influence of the mineral level in drinking water and the thermal environment on the performance and intestinal fluid flux of newly-weaned pigs, 300
Water Soluble Nitrogen
22A
Water-Binding
41A
Waterer
333A
Waterholding Capacity
327A
Weaning
79A, 181A, 3B, 59B, 60B, 61B, 99B
Effectiveness of zinc acetate injection in alleviating postweaning lag in pigs, 3037
Efficacy of magnesium-L-ascorbyl-2-phosphate as a vitamin C source for weanling and growing-finishing swine, 2354
Weaning Weight
148A, 27B, 37B
Weanling Pigs
166A, 214A, 215A, 263A, 273A, 60B, 64B
Effects of diet acidity and protein level or source of calcium on the performance, gastrointestinal content measurements, bone measurements, and carcass composition of gilt and barrow weanling pigs, 2670
Weight
Effect of positive genetic trend for mature size on age-of-dam adjustment factors for weaning weight in Angus field records, 828
Weight Gain
65A, 9B, 98B
Weight Losses
The effect of live weight gain and live weight loss on body composition of Merino wethers: Chemical composition of the noncarcass organs and the empty body, 3098
Weight Traits
40B
Weight-Age
26B
Welfare
268A
Well-Being
321A
Wet Chemistry
83B
Wet Corn Distillers Grains
135A, 234A
Wethers
131A
Wheat
113A, 181A, 235A
Influence of flake thickness on the feeding value of steam-rolled wheat for feedlot cattle, 21
Wheat Gluten
69B
Effects of replacing milk and soybean products with wheat glutens on digestibility of nutrients and growth performance in nursery pigs, 151
Wheat Silage
29B
Wheatgrass
Steers grazing intermediate wheatgrass at various stages of maturity: Effects on nutrient quality, forage intake, digesta

kinetics, ruminal fermentation, and serum hormones and metabolites, 478
Whey
8A, 11A, 35A, 47A, 204A
Whey Proteins
2A, 7A, 8A, 12A, 23A, 27A, 50A, 54A

299A, 4B
Influence of *Yucca* extract on ruminal metabolism in cows, 1038

Z

Zeranol
100B
Effect of implant sequence and dose on feedlot cattle performance, 277
Zinc
95A, 132A, 262A, 331A, 4B, 6B, 7B, 42B, 106B
Bioavailability of zinc from inorganic and organic sources for pigs fed corn-soybean meal diets, 2681
Effectiveness of zinc acetate injection in alleviating postweaning lag in pigs, 3037
Zinc Amino Acids
359A
Zinc Lysine
131A
Zinc Methionine
95A, 131A
Bioavailability of zinc from inorganic and organic sources for pigs fed corn-soybean meal diets, 2681
Recovery rate and plasma zinc and copper concentrations of steer calves fed organic and inorganic zinc and manganese sources with or without injectable copper and challenged with infectious bovine rhinotracheitis virus, 212
Zinc Oxide
359A
Bioavailability of zinc from inorganic and organic sources for pigs fed corn-soybean meal diets, 2681
Zinc Proteinate
4B
Zinc Sulfate
Bioavailability of zinc from inorganic and organic sources for pigs fed corn-soybean meal diets, 2681
Zona Pellucida
Effects of blastocoelic expansion and plasminogen activator activity on hatching and zona pellucida solubility in bovine embryos in vitro, 2936
Zygotes
Effect of free amino acids and vitamins on cleavage and developmental rate of bovine zygotes in vitro, 434
Zymography
